G. As used in this section, "teacher preparation program" means a program that has been formally approved as meeting the requirements of the department and that leads to level one teacher licensure, including a program in a two-year post-secondary educational institution that meets the requirements for a teacher education transfer module established pursuant to Subsection C of Section 21-1B-4 NMSA 1978.

**The 2021 amendment**, effective July 1, 2021, granted educational assistants professional leave to attend teacher preparation programs in New Mexico if the educational assistants meet certain conditions, defined "teacher preparation program" for purposes of this section, and made technical changes; in Subsection B, deleted "Educational assistants hired on or after January 8, 2002, who provide

instructional support in a Title 1 program, must meet the qualifications for the highest level of licensure on the effective date of this statute. Paraprofessionals hired prior to January 8, 2002 must meet the qualifications for the highest level of licensure by January 8, 2006"; added a new Subsection C and redesignated former Subsections C through E as Subsections D through F, respectively; and added Subsection G.

### **22-10A-17.2. Alternative level three-B licensure; track for instructional support providers.**

A. An alternative level three-B license is a five-year license granted to a school administrator applicant who meets the qualifications for that level. Licenses may be renewed upon satisfactory annual demonstration of instructional leader and administrative competency.

B. The department shall grant an alternative level three-B license to an applicant who is licensed by the department as a school counselor, school social worker, school nurse, speech-language

pathologist, psychologist, physical therapist, physical therapy assistant, occupational therapist, occupational therapy assistant, recreational therapist, marriage and family therapist, interpreter for the deaf or diagnostician and who:

**History:** Laws 2017, ch. 68, § 1.

**Effective dates.** — Laws 2017, ch. 68 contained no effective date provision, but, pursuant to N.M. Const., art.

## **22-10A-18. School principals; duties.**

In addition to other duties prescribed by law, a school principal shall:

- A. under the general supervision of the local superintendent, assume administrative responsibility and overall instructional leadership for the public school to which he is assigned, including the discipline of students and the planning, operation, supervision and evaluation of the educational program of the school;
- B. recommend to the local superintendent the employment, promotion, transfer, discharge and termination of school employees in his school;
- C. evaluate the performance of school employees and develop professional development plans or job improvement plans to assist school employees to improve;
- D. take disciplinary action against school employees;

**Emergency clauses.** — Laws 2003, ch. 153, § 74 contained an emergency clause and was approved April 4, 2003.

## **22-10A-19. Teachers and school principals; accountability; evaluations; sick leave; professional development; peer intervention; mentoring.**

A. The department shall adopt criteria and minimum highly objective uniform statewide standards of evaluation for the annual performance evaluation of licensed school employees. The professional development plan for teachers shall include documentation on how a teacher who receives professional development that has been required or offered by the state or a school district or charter school incorporates the results of that professional development in the classroom.

B. The local superintendent shall adopt policies, guidelines and procedures for the performance evaluation process. Evaluation by other school employees shall be one component of the evaluation tool for school administrators. A teacher's use of personal leave and up to ten days of sick leave shall not affect that teacher's annual performance evaluation; provided that the leave is used consistently with the policy of the local school board or the governing body of the charter school that employs that teacher. An annual performance evaluation may reflect the lowest score with respect to teacher attendance for a teacher who is determined by a school district or charter school to be using sick leave days in a manner inconsistent with a local school board policy, charter

school governing council policy, administrative regulation or an applicable collective bargaining agreement.

C. As part of the highly objective uniform statewide standard of evaluation for teachers, the school principal shall observe each teacher's classroom practice to determine the teacher's ability to demonstrate state-adopted competencies.

D. At the beginning of each school year, teachers and school principals shall devise professional development plans for the coming year, and performance evaluations shall be based in part on how well the professional development plan was carried out.

E. If a level two or three-A teacher's performance evaluation indicates less than satisfactory performance and competency, the school principal may require the teacher to undergo peer intervention, including mentoring, for a period the school principal deems necessary. If the teacher is unable to demonstrate satisfactory performance and competency by the end of the period, the peer interveners may recommend termination of the teacher.

F. At least every two years, school principals shall attend a training program approved by the department to improve their evaluation, administrative and instructional leadership skills.

**History:** 1978 Comp., § 22-10A-19, enacted by Laws 2003, ch. 153, § 50; 2010, ch. 107, § 1; 2019, ch. 12, § 1.

**Cross references.** — For references of the former state board of education, see 9-24-15 NMSA 1978.

**The 2019 amendment,** effective June 14, 2019, provided that a teacher's use of personal leave and up to ten days of sick leave shall not affect the teacher's annual performance evaluation, provided that the leave is used consistently with policies of the local school board or charter school governing body; after "evaluations", added "sick leave"; and in Subsection B, added the last two sentences.

**The 2010 amendment,** effective May 19, 2010, in Subsection A, after "The", changed "state board" to "department", and added the second sentence; designated the former second paragraph of Subsection A as Subsection B; and relettered the succeeding subsections accordingly.

#### ANNOTATIONS

**Structure for teacher evaluation program is within the discretion of the secretary of public education department.** — The legislature has delegated broad authority to the secretary of public education to define how teachers will be evaluated, so long as evaluations are highly objective and uniform statewide. *State ex rel. Stapleton v. Skandera*, 2015-NMCA-044.

Where the secretary of the public education department (secretary) implemented new regulations governing the evaluation of teachers in public schools, and where Subsection A of this section requires the public education department to adopt criteria and minimum highly objective uniform statewide standards of evaluation for the annual performance evaluation of licensed school employees, the

secretary was acting within her statutory authority and exercising her discretion under the statute as long as the teacher evaluation program was objective and uniform; the district court did not err in denying the petition for a writ of mandamus. *State ex rel. Stapleton v. Skandera*, 2015-NMCA-044.

**Department regulation does not violate the public school code.** — Where Subsection A of this section requires the department to adopt uniform statewide standards of evaluation for the annual performance evaluation of licensed school employees, and where the public education department's regulation for evaluation of teachers exempted district-authorized charter schools, the department's regulation did not violate this section because under Section 22-8B-5 NMSA 1978, of the public school code, the legislature expressly exempted charter schools from the public school code's provisions related to teacher evaluations. *State ex rel. Stapleton v. Skandera*, 2015-NMCA-044.

Where Subsection C of this section requires principals to observe each teacher in the classroom as part of the highly objective uniform statewide standard of evaluation for teachers, and where the public education department's regulation for evaluation of teachers required "school leaders" to observe instructional practice of teachers as part of a teacher evaluation program and where "school leaders" includes both principals and assistant principals, the department's regulation did not violate Subsection C of this section because the regulation did not relieve principals of their statutory duty to observe each teacher's performance. *State ex rel. Stapleton v. Skandera*, 2015-NMCA-044.

(3) guidelines for integrating career-technical education content into academic instructional practices, including training on best practices to understand state and regional workforce needs and transitions to post-secondary education and the workforce; and

(4) guidelines for funding rigorous professional development for career-technical teachers and educational assistants in the same manner as for teachers and educational assistants of other subjects for which the department has promulgated standards and benchmarks.

C. The department and school districts shall use all available funding sources, including federal Every Student Succeeds Act Title 2 funding, to provide professional development for career-technical teachers and educational assistants.

**History:** Laws 2004, ch. 27, § 2; 2019, ch. 2, § 1.

**Cross references.** — For references to the former commission on higher education, see 9-25-4.1 NMSA 1978.

**The 2019 amendment,** effective June 14, 2019, required professional development for career-technical teachers and educational assistants in the same manner as teachers of other subjects for which the Public

Education Department has promulgated standards and benchmarks, and required the use of federal Every Student Succeeds Act Title II funding for career-technical professional development; in Subparagraph B(2)(e), after "parents", added "and organizations with specific subject-area expertise or professional development;"; added new Paragraphs B(3) and B(4); and added Subsection C.

## 22-10A-19.2. Educator accountability report.

- (7) a description of each program's placement practices; and
- (8) the number and percentage of students hired by New Mexico school districts.

D. The educator accountability report shall include an evaluation plan that includes high performance objectives. The plan shall include objectives and measures for:

- (1) increasing student achievement for all students;
- (2) increasing teacher and administrator retention, particularly in the first three years of a teacher's or administrator's career;
- (3) increasing the percentage of students who pass the New Mexico teacher or administrator assessments for initial licensure on the first attempt;
- (4) increasing the percentage of secondary school classes taught in core academic subject areas by teachers who demonstrate by means of rigorous content area assessments a high level of subject area mastery and a thorough knowledge of the state's academic content and performance standards;
- (5) increasing the percentage of elementary school classes taught by teachers who demonstrate by means of a high level of performance in core academic subject areas their mastery of the state academic content and performance standards; and
- (6) increasing the number of teachers trained in math, science and technology.

E. In addition to the specifications in Subsections C and D of this section, the annual educator accountability report shall also include itemized information on program revenues and expenditures, including staff salaries and benefits and the operational cost per credit hour.

F. The annual educator accountability report shall be adopted by each public post-secondary educational institution, reported in accordance with guidelines established by the department to ensure effective communication with the public and disseminated to the governor, legislators and other policymakers and business and economic development organizations by November 1 of each year.

**History:** Laws 2007, ch. 264, § 2; 2009, ch. 20, § 1.

The 2009 amendment, effective June 19, 2009, changed the name of the uniform statewide teacher education accountability reporting system to the uniform

E. Students receiving special education services integrated into a regular classroom for any part of the day shall be counted in the calculation of class load averages. Students receiving special education services not integrated into the regular classroom shall not be counted in the calculation of class load averages. Only classroom teachers charged with responsibility for the regular classroom instructional program shall be counted in determining average class loads. In elementary schools offering only one grade level, average class loads may be calculated by averaging appropriate grade levels between schools in the school district.

J. The department shall report to the legislative education study committee by November 30 of each year regarding each school district's ability to meet class load requirements imposed by law.

K. Notwithstanding the provisions of Subsection G of this section, the state board [department] may waive the individual class load and teaching load requirements established in this section upon a demonstration of a viable alternative curricular plan and a finding by the state board that the plan is in the best interest of the school district and that, on an annual basis, the plan has been presented to and is supported by the affected teaching staff. The department shall evaluate

the impact of each alternative curricular plan annually. Annual reports shall be made to the legislative education study committee.

L. Teachers shall not be required to perform noninstructional duties except in emergency situations as defined by the state board [department]. For purposes of this subsection, "noninstructional duties" means noon hall duty, noon ground duty and noon cafeteria duty.

**Contracts governed by ordinary rules of contract law.** — Contracts for employment made by a school district and its employees are governed by the ordinary rules of contract law, except where expressly restricted by statute. *Board of Educ. v. Jennings*, 1982-NMCA-135, 98 N.M. 602, 651 P.2d 1037.

**Subsection A is directory only.** — Because Subsection A does not prescribe the result that will follow if a contract is not on a form approved by the state board, it is directory only. *Board of Educ. v. Jennings*, 1982-NMCA-135, 98 N.M. 602, 651 P.2d 1037.

**Extension of two-year contract.** — A two-year contract between a local school board and a certified school administrator may not be extended for an additional year, in light of this section, which states that a school administrator's contract may not exceed two years (now three years). 1988 Op. Att'y Gen. No. 88-55.

## 22-10A-22. Licensed school employees; notice of reemployment; termination.

On or before fifteen working days prior to the last day of the school year, the superintendent shall serve written notice of reemployment or termination on each licensed school employee employed by the public school. A notice of reemployment shall be an offer of employment for the ensuing school year. A notice of termination shall be a notice of intention not to reemploy for the ensuing school year. Failure of the superintendent to serve a written notice of reemployment or termination on a licensed school employee shall be construed to mean that notice of reemployment has been served upon the licensed school employee for the ensuing school year according to the terms of the existing employment contract but subject to any additional compensation allowed other licensed school employees of like qualifications and experience. Nothing in this section shall be construed to mean that failure of a superintendent to serve a written notice of reemployment or termination shall automatically extend a licensed school employee's employment contract for a period in excess of one school year.

**History:** 1953 Comp., § 77-8-9, enacted by Laws 1967, ch. 16, § 114; 1975, ch. 306, § 8; 1986, ch. 33, § 20; 1978 Comp., § 22-10-12, recompiled as § 22-10A-22 by Laws 2003, ch. 153, § 72; 2019, ch. 238, § 5.

**Recompilations.** — Laws 2003, ch. 153, § 72 recompiled former 22-10-12 NMSA 1978, as 22-10A-22 NMSA 1978, effective April 4, 2003.

For applicability of provisions of section, see 22-10A-26 NMSA 1978.

**The 2019 amendment**, effective June 14, 2019, changed certain requirements for notice of reemployment or termination, and clarified certain terms and provisions related to notice of reemployment or termination; added "Licensed school employees"; and after "On or before", added "fifteen working days prior to".

### ANNOTATIONS

**Failure to serve required notice upon nontenured teacher.** — Because appeal to the state board was available only to tenured teachers for a local board's failure to serve the required notice, the failure of the local board to give a nontenured teacher the written notice required by the regulation 14 days before the end of the school year did not require that the court order her re-employment for an additional year. *Provoda v. Maxwell*, 1991-NMSC-022, 111 N.M. 578, 808 P.2d 28.

**Failure to comply with regulation requiring notice.** — A regulation of the state board of education requiring that notice of reemployment or termination be served no later than 14 days before the end of the school year did not give a nontenured teacher an enforceable right to notice before the end of the school year, and therefore the board's notice of intent not to employ, timely served in accordance

with this section, complied with the law. *Giagreco v. Murlless*, 1997-NMCA-061, 123 N.M. 498, 943 P.2d 532.

**Reemployment offer to come from school board.** — An official offer to reemploy can come only from the school board; thus, a teacher's purported acceptance of employment based on a memorandum from his supervisors of their intent to recommend his reemployment did not form an employment contract. *Giagreco v. Murlless*, 1997-NMCA-061, 123 N.M. 498, 943 P.2d 532.

**Administrators have no tenure rights.** — While certified school instructors have procedural due process and certain other rights under the School Personnel Act, administrators have no tenure rights and therefore have no expectation of continued employment. *Swinney v. Deming Bd. of Educ.*, 1994-NMSC-039, 117 N.M. 492, 873 P.2d 238.

## **22-10A-23. Licensed school employees; reemployment; acceptance; rejection; binding contract.**

A. Each licensed school employee shall deliver to the superintendent a written acceptance or rejection of reemployment for the ensuing school year within fifteen days from the following:

- (1) the date written notice of reemployment is served upon the licensed school employee; or
- (2) the last day of the school year when no written notice of reemployment or termination is served upon the licensed school employee on or before fifteen working days prior to the last day of the school year.

B. Delivery of the written acceptance of reemployment by a licensed school employee creates a binding employment contract between the licensed school employee and the superintendent until the parties enter into a formal written employment contract. Written employment contracts between the superintendent and licensed school employees shall be executed by the parties not later than ten days before the first day of a school year.

**History:** 1953 Comp., § 77-8-10, enacted by Laws 1967, ch. 16, § 115; 1975, ch. 306, § 9; 1986, ch. 33, § 21; 1978 Comp., § 22-10-13, recompiled as § 22-10A-23 by Laws 2003, ch. 153, § 72; 2019, ch. 238, § 6.

**Recompilations.** — Laws 2003, ch. 153, § 72 recompiled former 22-10-13 NMSA 1978, as 22-10A-23 NMSA 1978, effective April 4, 2003.

**The 2019 amendment,** effective June 14, 2019, clarified certain terms throughout the section; added "Licensed school employees"; and in Subsection A, in Paragraph A(2), after "on or before", added "fifteen working days prior to".

### **ANNOTATIONS**

**Failure to serve required notice upon nontenured teacher.** — A regulation of the state board of education requiring that notice of reemployment or termination be served no later than 14 days before the end of the school year did not give a nontenured teacher an enforceable

right to notice before the end of the school year, and therefore the board's notice of intent not to employ, timely served in accordance with Section 22-10-12 NMSA 1978 (now Section 22-10A-22 NMSA 1978), complied with the law. *Giangreco v. Murlless*, 1997-NMCA-061, 123 N.M. 498, 943 P.2d 532.

**Necessity for acceptance.** — Where teacher did not deliver an acceptance to school board within statutory period, there was no binding contract of employment. This is the case even if the teacher did not receive notice of termination of employment. *Hyde v. Taos Mun. Sch.*, 1972-NMSC-061, 84 N.M. 206, 501 P.2d 194.

**Time requirement for acceptance.** — This section does not authorize written acceptance within 15 days of the end of school, but from the end of school; moreover, the entirety of the section indicates that acceptance is contemplated only after school has ended without the teacher having received any notice. *Provoda v. Maxwell*, 1991-NMSC-022, 111 N.M. 578, 808 P.2d 28.

## **22-10A-24. Termination decisions; local school board; governing authority of a state agency; procedures.**

A. A local school board or governing authority of a state agency may terminate a licensed school employee, excluding licensed educational assistants who have not been offered and accepted the third consecutive contract, for any reason it deems sufficient. A local school board or governing authority of a state agency may terminate a nonlicensed school employee or a licensed educational assistant with less than one year of employment for any reason it deems sufficient. Upon request of the employee, the local superintendent or state agency administrator shall provide written reasons for the decision to terminate. The reasons shall be provided within ten working days of the request. The reasons shall not provide a basis for contesting the decision under the School Personnel Act.

B. Before terminating a nonlicensed school employee or a licensed educational assistant, the local school board or governing authority shall serve the employee or assistant with a written notice of termination.

C. A licensed school employee who has been employed by a school district or state agency for more than two consecutive years or a nonlicensed school employee or licensed educational assistant who has been employed for more than one year and who receives a notice of termination pursuant to either Section 22-10A-22 NMSA 1978 or this section may request an opportunity to make a statement to the local school board or governing authority on the decision to terminate the

employee or assistant by submitting a written request to the local superintendent or state agency administrator within five working days from the date written notice of termination is served upon the employee or assistant. The employee or assistant may also request in writing the reasons for the termination action. The local superintendent or state agency administrator shall provide written reasons for the notice of termination to the employee or assistant within five working days from the date the written request for a meeting and the written request for the reasons were received by the local superintendent or state agency administrator.

D. A local school board or governing authority may not terminate a licensed school employee who has been offered and accepted a third-year contract or a nonlicensed school employee or licensed educational assistant who has been employed by a school district or state agency for more than one year without just cause.

E. The employee's request pursuant to Subsection C of this section shall be granted if the employee responds to the local superintendent's or state agency administrator's written reasons as provided in Subsection C of this section by submitting in writing to the local superintendent or state agency administrator a contention that the decision to terminate was made without just cause. The written contention shall specify the grounds on which it is contended that the decision was without just cause and shall include a statement of the facts that the employee believes support the employee's contention. This written statement shall be submitted within ten working days from the date the employee receives the written reasons from the local superintendent or state agency administrator. The submission of this statement constitutes a representation on the part of the employee that the employee can support the employee's contentions and an acknowledgment that the local school board or governing authority may offer the causes for its decision and any relevant data in its possession in rebuttal of the employee's contentions.

F. A local school board or governing authority shall meet to hear the employee's statement in no less than five or more than fifteen working days after the local school board or governing authority receives the statement. The hearing shall be conducted informally in accordance with the provisions of the Open Meetings Act [Chapter 10, Article 15 NMSA 1978]. The employee and the local superintendent or state agency administrator may each be accompanied by a person of the employee's and the local superintendent's or state agency administrator's choice. First, the local superintendent shall present the factual basis for the determination that just cause exists for the termination of the employee, limited to those reasons provided to the employee pursuant to Subsection C of this section. Then, the employee shall present the employee's contentions, limited to those grounds specified in Subsection E of this section. The local school board or governing authority may offer such rebuttal testimony as it deems relevant. All witnesses may be questioned by the local school board or governing authority, the employee or the employee's representative and the local superintendent or state agency administrator or the local superintendent's or state agency administrator's representative. The local school board or governing authority may consider only such evidence as is presented at the hearing and need consider only such evidence as it considers reliable. The local school board or governing authority shall notify the employee and the local superintendent or state agency administrator of its decision in writing within five working days from the conclusion of the meeting.

**The 2021 amendment**, effective June 18, 2021, allowed termination of school employment or school volunteer position decisions to be made public; in Subsection A, deleted "The reasons shall not be publicly disclosed by the local superintendent, state agency administrator, local

school board or governing authority"; and in Subsection C, deleted "Neither the local superintendent or state agency administrator nor the local school board or governing authority shall publicly disclose its reasons for termination."

**The 2019 amendment**, effective June 14, 2019, clarified that local school boards and governing authorities may terminate any licensed school employee, with certain exceptions, for any reason deemed sufficient, and clarified that licensed school employees who have been offered and are accepting a third-year contract, and nonlicensed school employees or licensed educational assistants employed more than one year, cannot be terminated without just cause; in Subsection A, after "state agency may terminate", deleted "an employee with fewer than three

years of consecutive service" and added "a licensed school employee, excluding licensed educational assistants who have not been offered and accepted the third consecutive contract," after "deems sufficient," added "A local school board or governing authority of a state agency may terminate a nonlicensed school employee or a licensed educational assistant with less than one year of employment for any reason it deems sufficient," after "superintendent or", added "state agency", and after "superintendent," added "state agency"; in Subsection B, after "terminating a", deleted "noncertified" and added "nonlicensed", after "school employee", added "or a licensed educational assistant", and after "serve the employee", added "or assistant"; in Subsection C, after the subsection designation, deleted "An" and added "A licensed school", after "district or state agency for", deleted "three" and added "more than two", after "consecutive years", added, "or a nonlicensed school employee or licensed educational assistant who has been employed for more than one year", after "Section", changed "22-10-12" to "22-10A-22", after "superintendent or", added "state agency", after "served upon", deleted "him" and added "the employee or assistant", after each occurrence of "employee", added "or assistant", after each occurrence of "superintendent or", added "state agency"; in Subsection D, after "may not terminate", deleted "an employee who has been employed by a school district or state agency for three consecutive years" and added "a licensed school employee who has been offered and accepted a third-year contract or a nonlicensed school employee or licensed educational assistant who has been employed by a school district or state agency for more than one year"; in Subsection E, after each occurrence of "superintendent or", added "state agency"; and in Subsection F, after each occurrence of "superintendent or", added "state agency", and after "accompanied by a person of", deleted "his" and added "the employee's and the local superintendent's or state agency administrator's".

**The 1994 amendment**, effective May 18, 1994, substituted "employee" for "certified school instructor" throughout the section, rewrote the first sentence of Subsection A, added Subsection B and redesignated former Subsections B through E as Subsections C through F and made related changes, substituted "or this section" for "or Subsection A of this section" in Subsection C, and substituted "terminate" for "refuse to reemploy" in Subsection D.

**The 1993 amendment**, effective July 1, 1993, substituted "Subsection A" for "Subsection B" in the first sentence and "were received" for "was received" in the third sentence of Subsection B; substituted "Subsection B" for "Subsection C" in two places in the first sentence of Subsection D and in the fourth sentence of Subsection E; and substituted "Subsection D" for "Subsection E" in the fifth sentence of Subsection E.

**The 1991 amendment**, effective June 14, 1991, rewrote this section to the extent that a detailed comparison would be impracticable.

**The 1990 amendment**, effective May 16, 1990, inserted "governing authority of a state agency" in the catchline and in the first sentence of Subsection A and "or governing authority" following "local school board", "or state agency" following "school district", and "local" before "superintendent" throughout the section; added the final four sentences in Subsection A; in Subsection B, substituted "five working days" for "five calendar days" in two places and deleted "local school board's" preceding "action to terminate him" at the end of the second sentence; in Subsection C, inserted "state agency" in Subparagraph (c) of Paragraph (2); substituted "ten working days" for "five calendar days" in the third sentence of Subsection D; and, in Subsection E, substituted "in no less than five or more than fifteen working days" for "within ten calendar days"

in the first sentence and "five working days" for "five calendar days" in the final sentence.

##### C. HEARINGS.

### I. GENERAL CONSIDERATION.

**Effect of 1994 amendment.** — The 1994 amendment to this section and Section 22-10-14.1 NMSA 1978 (now Section 22-10A-25 NMSA 1978) does not protect a non-certified public school employee who was terminated a few days after the effective date of the amendment when the termination was authorized by the terms of a contract that predated the effective date of the amendment. *Gadsden Fed'n of Teachers v. Board of Educ.*, 1996-NMCA-069, 122 N.M. 98, 920 P.2d 1052.

### II. TENURE RIGHTS.

#### A. GENERALLY.

**Compiler's notes.** — Most of the cases cited in the notes below were decided under this section as it existed prior to the 1986 reenactment. Prior to the reenactment, the section provided for tenure rights for certified school instructors employed for three consecutive school years and having entered into an employment contract for a fourth consecutive school year. See now 22-10-11E NMSA 1978 [now 22-10A-21 NMSA 1978], which provides that, except as provided in 22-10-12 NMSA 1978 [now 22-10A-22 NMSA 1978], no person employed by contract pursuant to 22-10-11 NMSA 1978 [now 22-10A-21 NMSA 1978] shall have a legitimate objective expectancy of reemployment, and Subsection F of this section.

**Drawing on facts predating statute not retroactive application.** — The supreme court has held that teacher tenure laws are prospective in application. However, a statute is not applied retroactively merely because it draws upon antecedent facts for its operation. *Lucero v. Board of Regents*, 1978-NMSC-054, 91 N.M. 770, 581 P.2d 458.

**Persons to whom applicable.** — Only certified school instructors with three or more years of service are entitled to procedural due process prior to nonrenewal; the statutory scheme does not give similar protection to administrators at the expiration and nonrenewal of their contracts. *Cole v. Ruidoso Mun. Sch.*, 947 F.2d 903 (10th Cir. 1991).

**Tenure rights of administrators.** — While certified school instructors have procedural due process and certain other rights under the School Personnel Act, administrators have no tenure rights and therefore have no expectation of continued employment. *Swinney v. Deming Bd. of Educ.*, 1994-NMSC-039, 117 N.M. 492, 873 P.2d 238.

The legislature purposely excluded school administrators from the protections afforded certified school instructors. *Naranjo v. Board of Educ. of Española Pub. Schs.*, 1995-NMSC-015, 119 N.M. 401, 891 P.2d 542.

**Teacher at state school held entitled to tenure.** — Where a certified teacher seeking recognition as a tenured teacher had been employed for three consecutive years prior to the effective date of the 1975 amendment making this section applicable to state agencies, and had entered into a contract for the fourth consecutive year after the amendment became effective, his years of service prior to that date could be counted towards the required number of years of employment, since a contract had been entered into after the effective date of the amendment. *Lucero v. Board of Regents*, 1978-NMSC-054, 91 N.M. 770, 581 P.2d 458.

**Section required only that a certified school instructor be employed by a school district; it did not**

limit that employment to teaching positions or to employment in a single school within that district. *Penasco Indep. Sch. Dist. No. 4 v. Lucero*, 1974-NMCA-099, 86 N.M. 683, 526 P.2d 825.

**Instructor lost tenure rights upon employment as administrator.** — A certified school instructor who had previously acquired tenure rights as a certified school instructor with a public school district lost those tenure rights as a result of being reemployed for the next consecutive school year as a certified school administrator. *Atencio v. Board of Educ.*, 1982-NMSC-140, 99 N.M. 168, 655 P.2d 1012 (decided prior to 1983 amendment adding last sentence of Subsection B), superseded by statute. *Naranjo v. Board of Educ. of Española Pub. Schs.*, 1995-NMSC-015, 119 N.M. 401, 891 P.2d 542.

An individual who voluntarily changed his teacher status to become a certified school administrator did not retain a property interest as a tenured certified school instructor entitled to protection by due process. *Atencio v. Board of Educ.*, 1982-NMSC-140, 99 N.M. 168, 655 P.2d 1012 (decided prior to 1983 amendment), superseded by statute. *Naranjo v. Board of Educ. of Española Pub. Schs.*, 1995-NMSC-015, 119 N.M. 401, 891 P.2d 542.

**Reduction in force or staff realignment.** — A tenured teacher subject to termination under a reduction-in-force plan is entitled to bump a non-tenured teacher holding a position for which both are certified, or take priority over a non-tenured teacher in obtaining the necessary certification for a vacant position for which neither is presently certified. However, a tenured teacher can be terminated and a non-tenured teacher retained as an alternative to a staff realignment which would seriously affect the educational program. *N.M. State Bd. of Educ. v. Abeyta*, 1988-NMSC-017, 107 N.M. 1, 751 P.2d 685.

**Reemployment offer to come from school board.** — An official offer to reemploy can come only from the school board; thus, a teacher's purported acceptance of employment based on a memorandum from his supervisors of their intent to recommend his reemployment did not form an employment contract. *Giangreco v. Murlless*, 1997-NMCA-061, 123 N.M. 498, 943 P.2d 532.

#### B. PROCEDURE FOR REFUSAL TO REEMPLOY.

**Service of notice of termination during third year of employment.** — A certified teacher who is served during, but prior to the completion of, the teacher's third year of teaching with notice of the school board's intent not to renew the teacher's contract may be terminated only after a hearing and based upon good cause. *Weiss v. Board of Educ. of Santa Fe Pub. Sch.*, 2014-NMCA-100, cert. denied, 2014-NMCERT-009.

Where plaintiff, who was a certified teacher, received notice that the school board would not renew plaintiff's teaching contract for a fourth year; the notice was given to plaintiff two weeks before plaintiff had completed plaintiff's third consecutive year of teaching; and the school board denied plaintiff's request for a hearing, the school board could terminate plaintiff only after a hearing and based upon good cause. *Weiss v. Board of Educ. of Santa Fe Pub. Sch.*, 2014-NMCA-100, cert. denied, 2014-NMCERT-009.

**Sufficiency of notice of termination.** — Where teacher with tenure rights was only given two days notice - excluding the date of service - before the end of the school year, and under the regulations prescribed by the state board she was entitled to no less than 14 days notice before the end of the school year, the conduct of the local board in failing to follow the regulation amounted to unfairness, and although teacher may have known her principal was going to recommend to the local board that she not be reemployed, this placed no burden upon her to employ an attorney, or to otherwise begin the preparation

of her defense, in anticipation of the ruling of the local board. She was entitled, insofar as the section and the rule permitted, to a timely notice, pursuant to the requirements of the rule. *Brininstool v. N.M. State Bd. of Educ.*, 1970-NMCA-034, 81 N.M. 319, 466 P.2d 885.

**Formality of notice of termination.** — Evaluation reports by a school principal and a supervisor addressed "To Whom It May Concern," copies of which were sent to counsel for teacher, did not constitute the written statement of the cause or causes for his dismissal even though the letter by which these evaluation reports were transmitted referred to them as formal charges on file with the local board, and also advised of complaints and observations made against teacher by school patrons and parents. *Belen Mun. Bd. of Educ. v. Sanchez*, 1965-NMSC-088, 75 N.M. 386, 405 P.2d 229.

**Grounds for termination.** — Absent grounds personal to a teacher, to terminate his services it is necessary to show affirmatively that there is no position available which he is qualified to teach, and where a local board asserts no grounds personal to the teacher, it is up to them to prove that no position is available for which he is qualified. *Penasco Indep. Sch. Dist. No. 4 v. Lucero*, 1974-NMCA-099, 86 N.M. 683, 526 P.2d 825; *Fort Sumner Mun. Sch. Bd. v. Parsons*, 1971-NMCA-066, 82 N.M. 610, 485 P.2d 366, cert. denied, 82 N.M. 601, 485 P.2d 357.

#### C. HEARINGS.

**Due process required.** — Exhaustion of administrative remedies as a precursor to plaintiff's suit for wrongful termination was not required where school district did not inform plaintiff of his right to attend the board meeting where his termination would be discussed, and thereby deprived plaintiff of his due process right to employ the administrative process mandated by this section. *Franco v. Carlsbad Mun. Schs.*, 2001-NMCA-042, 130 N.M. 543, 28 P.3d 531.

**Hearing prerequisite to appeal.** — It is well settled that a teacher must first seek a hearing before the local board and, if dissatisfied there, appeal from an adverse decision of the local board to the state board of education. *Shepard v. Board of Educ.*, 1970-NMSC-067, 81 N.M. 585, 470 P.2d 306; (decided under former Section 22-10-19 NMSA 1978, repealed in 1986).

The right to appeal to the state board, affirmatively authorized, is from a decision of the local board "after a hearing." The negative implication is that where no hearing has been held, an appeal to the state board is not authorized. Absent a hearing before the local board, neither the state board nor the court of appeals has jurisdiction over any matter presented. *Quintana v. State Bd. of Educ.*, 1970-NMCA-074, 81 N.M. 671, 472 P.2d 385, cert. denied, 81 N.M. 668, 472 P.2d 382 (decided under former Section 22-10-19 NMSA 1978, repealed in 1986).

that the documents were hearsay and prejudicial to his interest, and where none of the four exhibits contained evidence of insubordination during the term of the current contract, but each tended to establish that principal's insubordination during the current contract was willful, admission of the written hearsay was not error, since it could not have said that principal's right to a fair hearing, or his interests, was substantially prejudiced thereby. *McAlister v. ## 22-10A-25. Appeals; independent arbitrator; qualifications; procedure; binding decision.

A. An employee who is still aggrieved by a decision of a local school board or governing authority rendered pursuant to Section 22-10A-24 NMSA 1978 may appeal the decision to an arbitrator. A written appeal shall be submitted to the local superintendent or administrator within five working days from the receipt of the local school board's or governing authority's written decision or the refusal of the board or authority to grant a hearing. The appeal shall be accompanied by a statement of particulars specifying the grounds on which it is contended that the decision was impermissible pursuant to Subsection E of Section 22-10A-24 NMSA 1978 and including a statement of facts supporting the contentions. Failure of the employee to submit a timely appeal or a statement of particulars with the appeal shall disqualify the employee for any appeal and render the local school board's or governing authority's decision final.

B. The local school board or governing authority and the employee shall meet within ten working days from the receipt of the request for an appeal and select an independent arbitrator to conduct the appeal. If the parties fail to agree on an independent arbitrator, they shall request the presiding judge in the judicial district in which the employee's public school is located to select one. The presiding judge shall select the independent arbitrator within five working days from the date of the parties' request.

C. A qualified independent arbitrator shall be appointed who is versed in employment practices and school procedures and who preferably has experience in the practice of law. No person shall be appointed to serve as the independent arbitrator who has any direct or indirect financial interest in the outcome of the proceeding, has any relationship to any party in the proceeding, is employed by the local school board or governing authority or is a member of or employed by any professional or labor organization of which the employee is a member.

D. Appeals from the decision of the local school board or governing authority shall be decided after a de novo hearing before the independent arbitrator. The issue to be decided by the independent arbitrator is whether there was just cause for the decision of the local school board or governing authority to terminate the employee.

E. The de novo hearing shall be held within thirty working days from the selection of the independent arbitrator. The arbitrator shall give written notice of the date, time and place of the hearing, and such notice shall be sent to the employee and the local school board or governing authority.

F. Each party has the right to be represented by counsel at the hearing before the independent arbitrator.

G. Discovery shall be limited to depositions and requests for production of documents on a time schedule to be established by the independent arbitrator.

H. The independent arbitrator may issue subpoenas for the attendance of witnesses and for the production of books, records, documents and other evidence and shall have the power to administer oaths. Subpoenas so issued shall be served and enforced in the manner provided by law for the service and enforcement of subpoenas in a civil action.

I. The rules of civil procedure shall not apply to the de novo hearing, but it shall be conducted so that both contentions and responses are amply and fairly presented. To this end, the independent arbitrator shall permit either party to call and examine witnesses, cross-examine witnesses and introduce exhibits. The technical rules of evidence shall not apply, but, in ruling on the admissibility of evidence, the independent arbitrator shall require reasonable substantiation of statements or records tendered, the accuracy or truth of which is in reasonable doubt.

J. The local school board or governing authority has the burden of proof and shall prove by a preponderance of the evidence that, at the time the notice of termination was served on the employee, the local school board or governing authority had just cause to terminate the employee. If the local school board or governing authority proves by a preponderance of the evidence that there was just cause for its action, then the burden shifts to the employee to rebut the evidence presented by the local school board or governing authority.

K. The independent arbitrator shall uphold the local school board's or governing authority's decision only if it proves by a preponderance of the evidence that, at the time the notice of termination was served on the employee, the local school board or governing authority had just cause to terminate the employee. If the local school board or governing authority fails to meet its burden of proof or if the employee rebuts the proof offered by the local school board or governing authority, the arbitrator shall reverse the decision of the local school board or governing authority.

L. Either party desiring a record of the arbitration proceedings may, at the party's own expense, record or otherwise provide for a transcript of the proceedings; provided, however, that the record so provided shall not imply any right of automatic appeal or review.

M. The independent arbitrator shall render a written decision affirming or reversing the action of the local school board or governing authority. The decision shall contain findings of fact and conclusions of law. The parties shall receive actual written notice of the decision of the independent arbitrator within ten working days from the conclusion of the de novo hearing.

N. The sole remedies available under this section shall be reinstatement or payment of compensation reinstated in full but subject to any additional compensation allowed other employees of like qualifications and experience employed by the school district or state agency and including reimbursement for compensation during the entire period for which compensation was terminated, or both, less an offset for any compensation received by the employee during the period the compensation was terminated.

O. Unless a party can demonstrate prejudice arising from a departure from the procedures established in this section and in Section 22-10A-24 NMSA 1978, such departure shall be presumed to be harmless error.

P. The decision of the independent arbitrator shall be binding on both parties and shall be final and nonappealable except where the decision was procured by corruption, fraud, deception or collusion, in which case it shall be appealed to the district court in the judicial district in which the public school or state agency is located.

Q. Each party shall bear its own costs and expenses. The independent arbitrator's fees and other expenses incurred in the conduct of the arbitration shall be assigned at the discretion of the independent arbitrator.

R. School districts shall file a record with the department of all terminations and all actions arising from terminations annually.

#### ANNOTATIONS

**Effect of 1994 amendment.** — The 1994 amendment to this section and Section 22-10-14, NMSA 1978 (now Sections 22-10A-24 NMSA 1978) does not protect a non-certified public school employee who was terminated a few days after the effective date of the amendment when the termination was authorized by the terms of a contract that predated the effective date of the amendment. *Gadsden Fed'n of Teachers v. ## ANNOTATIONS

### I. GENERAL CONSIDERATION. II. DISCHARGE PROCEDURE.

#### I. GENERAL CONSIDERATION.

**Constitutionality.** — Considered together, the pre- and post-termination procedures of the School Personnel Act, Sections 22-10A-27 to -28 NMSA 1978, comport with due process requirements. *West v. San Jon Bd. of Educ.*, 2003-NMCA-130, 134 N.M. 498, 79 P.3d 842, cert. denied, 2003-NMCERT-002, 134 N.M. 723, 82 P.3d 533.

**Arbitration decision acts as collateral estoppel.** — Where plaintiff was a certified teacher; defendant gave plaintiff notice of intent to discharge; plaintiff did not request a hearing before the school board; after defendant discharged plaintiff, plaintiff requested a hearing before the school board or before an arbitrator; defendant subsequently filed an action in district court for breach of

contract and violation of due process; the district court ordered arbitration and stayed the proceedings pending the outcome of the arbitration; plaintiff was afforded an arbitration hearing before an independent arbitrator; the parties to the arbitration and the district court hearing were the same; the issue in the arbitration and the district court was the same; in the arbitration, plaintiff had notice of the allegations against plaintiff, was represented by counsel, and presented evidence and cross-examined witnesses; and the arbitrator upheld plaintiff's discharge and concluded that the procedural errors concerning plaintiff's request for a hearing before the school board were mooted by the district court's ruling requiring arbitration, plaintiff's claim for damages in district court was determined by the arbitrator and was barred by collateral estoppel. *Larsen v. Farmington Mun. Sch.*, 2010-NMCA-094, 148 N.M. 926, 242 P.3d 493, cert. denied, 2010-NMCERT-009, 149 N.M. 49, 243 P.3d 753.

**The legislature can constitutionally prescribe the methods for adjudicating a dispute over termination** of a certified school employee's right to continued employment because that right is a public right created by statute. *Board of Educ. of Carlsbad Mun. Schs. v. Harrell*, 1994-NMSC-096, 118 N.M. 470, 882 P.2d 511.

**"Discharge" includes temporary or permanent removal.** — "Discharge," as used in this section, prohibiting the discharge of certified instructors without an opportunity for notice and hearing, includes removing the teacher either temporarily or permanently from employment. *Board of Educ. v. Singleton*, 1985-NMCA-112, 103 N.M. 722, 712 P.2d 1384.

**Reduction in force as just cause.** — Statutory "just cause" allows for discharge of a teacher when exigent fiscal circumstances justify a reduction in force, but the teacher's competence, turpitude and performance do not. *Aguilera v. Board of Educ.*, 2006-NMSC-015, 139 N.M. 330, 132 P.3d 587.

**Standard for reduction in force discharge.** — When a school board is forced to reduce its teaching staff by way of a reduction in force, it must prove that there is no other position for which the teacher, who is to be discharged, is qualified consistent with the academic necessities of the district. *Aguilera v. Board of Educ.*, 2006-NMSC-015, 139 N.M. 330, 132 P.3d 587.

**Justification for discharge for reduction in force.** — Unlike termination, which applies to the coming year, discharge results in a teacher losing his or her job in the middle of the school year when there may be no opportunity to find other employment. Given the extreme hardship to the teacher, the justifications must be substantial to allow a school board to lay off a qualified teacher in the middle of a school year pursuant to a reduction in force. The school board has to show not just projected financial burdens in the future, but that it cannot survive financially in the present year, which is already underway. *Aguilera v. Board of Educ.*, 2006-NMSC-015, 139 N.M. 330, 132 P.3d 587.

## II. DISCHARGE PROCEDURE.

**Adequate notice.** — Where plaintiff, who was a certified teacher, was discharged; the notice of intent to recommend discharge alleged that plaintiff proposed to a student that the student pose for lewd photographs; the student at the arbitration hearing testified that plaintiff wanted the student to go with plaintiff somewhere in the woods after school to take pictures; the arbitrator found that defendant did not prove allegations that the proposed photographs were lewd; the arbitrator found only that plaintiff suggested to a student that the student pose for pictures outside the classroom and outside the presence of anyone else and that the photography was not part of a school project; and the arbitrator concluded that this suggestion alone constituted just cause for termination of plaintiff, plaintiff was not denied due process because the notice was sufficient to apprise plaintiff of the charges against plaintiff and the arbitrator's decision was not based on new charges but on information presented at the arbitration hearing which did not differ from the allegations contained in the notice. *Larsen v. Bd. of Educ. of the Farmington Mun. Sch.*, 2010-NMCA-093, 148 N.M. 926, 242 P.3d 487, cert. denied, 2010-NMCERT-009, 149 N.M. 49, 243 P.3d 753.

**The school board is required to conduct discharge hearings.** — Where the Albuquerque public school district (APS) sought to discharge a teacher by providing the teacher a discharge hearing before the superintendent and where the school board asserted that changes made to the Public School Code in 2003 divested school boards of all authority to act on any personnel matters and vested exclusive authority to act on all personnel matters in the local school superintendent, the district court did not err in issuing a permanent writ of mandamus to APS and its superintendent, directing that a proposed discharge hearing be conducted by the APS school board, because APS had a clear, legal duty under this section to provide the teacher with a discharge hearing before the school board. *Alarcon v. Albuquerque Pub. Schs. Bd. of Educ.*, 2018-NMCA-021, cert. denied.

**Reduction in force.** — A school board cannot discharge a certified school teacher before her current employment contract expires solely because of a reduction in force. *Aguilera v. Board of Educ.*, 2005-NMCA-069, 137 N.M. 642, 114 P.3d 322, cert. granted, 2005-NMCERT-006, 137 N.M. 767, 115 P.3d 230.

**Preponderance of evidence.** — It is incumbent upon a school board to demonstrate by a preponderance of the evidence that teacher's "discharge" was based upon her performance, competence, or turpitude. *Aguilera v. Board of Educ.*, 2005-NMCA-069, 137 N.M. 642, 114 P.3d 322, cert. granted, 2005-NMCERT-006, 137 N.M. 767, 115 P.3d 230.

**Construction of this section and Section 22-10-21 NMSA 1978 (now Section 22-10A-30 NMSA 1978).** *Morgan v. New Mexico State Bd. of Educ.*, 1971-NMCA-102, 83 N.M. 106, 488 P.2d 1210, cert. denied, 83 N.M. 105, 488 P.2d 1209 (decided prior to 1986 reenactment).

**Section inapplicable to suspensions with pay for duration of contract.** — School board's action in suspending school superintendent with pay for the duration of his contract period did not amount to a discharge and was not protected by the statutory requirements for a hearing. *Black v. Board of Educ.*, 1974-NMSC-095, 87 N.M. 45, 529 P.2d 271 (decided prior to 1986 reenactment).

**Neutral tribunal not required at pre-termination hearing,** because the statutory framework of the School Personnel Act, Sections 22-10A-27 to -28 NMSA 1978, provides for the opportunity to appeal the board's decision to an independent arbitrator in a post-termination hearing, followed by meaningful district court (now court of appeals) review. *West v. San Jon Bd. of Educ.*,

2003-NMCA-130, 134 N.M. 498, 79 P.3d 842, cert. denied, 2003-NMCERT-002, 134 N.M. 723, 82 P.3d 533.

**Exhaustion of administrative remedies required.** — By not completing her appeal of the board's decision to an independent arbitrator, a discharged teacher failed to exhaust her administrative remedies under the procedures set forth by the School Personnel Act, Sections 22-10A-27 to -28 NMSA 1978. *West v. San Jon Bd. of Educ.*, 2003-NMCA-130, 134 N.M. 498, 79 P.3d 842, cert. denied, 2003-NMCERT-002, 134 N.M. 723, 82 P.3d 533.

**Whether discharged teacher was entitled to pre-discharge work conferences** was a factual question where allegations against her were based on insubordination and willful misconduct. *West v. San Jon Bd. of Educ.*, 2003-NMCA-130, 134 N.M. 498, 79 P.3d 842, cert. denied, 2003-NMCERT-002, 134 N.M. 723, 82 P.3d 533.

**Determination as to good cause for discharge.** — In the absence of a statutory definition of the term, it is the function of the state board of education in the exercise of its sound discretion to determine the question of "good cause," and its determination is conclusive unless the evidence discloses that it acted unlawfully, arbitrarily or capriciously. *Lopez v. State Bd. of Educ.*, 1962-NMSC-070, 70 N.M. 166, 372 P.2d 121 (decided prior to enactment of Section 22-10A-2 NMSA 1978).

**School boards may discharge superintendent without interim appointment.** — The school board may discharge those employees of the school district that it directly employs, specifically superintendents, and is not required to hire an interim employee to fulfill this task or wait for the superintendent to recommend his own discharge. *Stanley v. Raton Bd. of Educ.*, 1994-NMSC-059, 117 N.M. 717, 876 P.2d 232.

**Assault while intoxicated.** — State board of education did not act unlawfully, arbitrarily or capriciously in finding good cause for the termination of a teacher's contract where teacher assaulted a woman in a bar while intoxicated. *Lopez v. State Bd. of Educ.*, 1962-NMSC-070, 70 N.M. 166, 372 P.2d 121.

**Insubordination.** — A principal's permitting a reading program which departed from the self-contained classroom basis established in the school system constituted insubordination. *McAlister v. N.M. State Bd. of Educ.*, 1971-NMCA-088, 82 N.M. 731, 487 P.2d 159.

**Harmless error applies to untimely request for discharge hearing.** — The explicit application of the harmless error provision in 22-10A-28(L) NMSA 1978 to this section's provision for requesting a discharge hearing unambiguously expresses the legislature's intent that failure to comply with the five-day time limit, 22-10A-27(B) NMSA 1978, is deemed harmless error, absent a showing of prejudice. *National Educ. Ass'n of N.M. v. Santa Fe Pub. Sch.*, 2016-NMCA-009.

Where petitioner, who received notice of the Santa Fe public schools' intent to discharge him from his teaching and coaching positions, filed a request for hearing two days after the five-day time limit had passed, petitioner's departure from the five-day time requirement, 22-10A-27(B) NMSA 1978, was harmless error where respondent failed to demonstrate prejudice. *National Educ. Ass'n of N.M. v. Santa Fe Pub. Sch.*, 2016-NMCA-009.

**Timing of hearing mandatory.** — The time specified for conducting a dismissal hearing pursuant to this section is mandatory, unless waived by the parties or unless a continuance is sought and obtained for good cause. *Board of Educ. v. Singleton*, 1985-NMCA-112, 103 N.M. 722, 712 P.2d 1384.

**Appeal limited to issues urged at hearing.** — A school board's delay in according a dismissed teacher a timely hearing under this section and the provisions of her contract could not be urged as a basis for dismissal of the board's appeal, where this ground was not initially argued in the administrative hearing below. *Board of*

## **22-10A-28. Discharge appeals; licensed school employees; independent arbitrator; qualifications; procedure; binding decision.**

A. A licensed school employee aggrieved by a decision of the governing authority to discharge the licensed school employee after a discharge hearing held pursuant to Section 22-10A-27 NMSA 1978 may appeal the decision to an independent arbitrator. A written notice of appeal shall be submitted to the governing authority within ten working days from the receipt of the copy of the written decision of the governing authority.

B. The governing authority may delegate responsibility for the arbitration to the superintendent. The superintendent as delegate of the governing authority and the licensed school employee shall meet within ten calendar days from the receipt of the notice of appeal and select an independent arbitrator to conduct the appeal, or, in the event the parties fail to agree on an independent arbitrator, they shall request the presiding judge in the judicial district in which the public school is located to select the independent arbitrator. The presiding judge shall select the independent arbitrator within five working days from the date of the parties' request.

C. A qualified independent arbitrator shall be appointed who is versed in employment practices and school procedures. No person shall be appointed to serve as the independent arbitrator who has any direct or indirect financial interest in the outcome of the proceeding, has any relationship to any party in the proceeding, is employed by the superintendent or is a member of or employed by any professional organization of which the licensed school employee is a member.

D. Appeals from the decision of the governing authority shall be decided after a de novo hearing before the independent arbitrator. The superintendent, as delegate of the governing authority, shall have the burden of proving by a preponderance of the evidence that, at the time of the notice of intent to recommend discharge, the superintendent had just cause to discharge the licensed school employee. The superintendent shall present evidence first, with the licensed school employee presenting evidence thereafter.

E. The hearing shall be held within thirty working days from the selection of the independent arbitrator. The independent arbitrator shall give written notice of the date, time and place of the hearing, and such notice shall be sent to the licensed school employee and the governing authority.

F. Each party has the right to be represented by counsel at the hearing before the independent arbitrator.

G. Discovery shall be limited to depositions and requests for production of documents on a time schedule to be established by the independent arbitrator.

H. The independent arbitrator may issue subpoenas for the attendance of witnesses and for the production of books, records, documents and other evidence and shall have the power to administer oaths. Subpoenas so issued shall be served and enforced in the manner provided by law for the service and enforcement of subpoenas in a civil action or in the manner provided by the American arbitration association's voluntary labor arbitration rules if that entity is used by the parties.

I. The rules of civil procedure shall not apply to the hearing, but it shall be conducted so that both contentions and responses are amply and fairly presented. To this end, the independent arbitrator shall permit either party to call and examine witnesses, cross-examine witnesses and introduce exhibits. The technical rules of evidence shall not apply, but, in ruling on the admissibility of evidence, the independent arbitrator may require reasonable substantiation of statements or records tendered, the accuracy or truth of which is in reasonable doubt.

J. An official record shall be made of the hearing. Either party may order a transcript of the record at the party's own expense.

K. The independent arbitrator shall render a written decision affirming or reversing the action of the governing authority. The decision shall contain findings of fact and conclusions of law. The parties shall receive the written decision of the independent arbitrator within thirty working days from the conclusion of the hearing.

L. Unless a party can demonstrate prejudice arising from a departure from the procedures established in this section and in Section 22-10A-27 NMSA 1978, such departure shall be presumed to be harmless error.

M. The decision of the independent arbitrator shall be final and binding on both parties and shall be nonappealable except where the decision was procured by corruption, fraud, deception or collusion, in which case it may be appealed to the court of appeals by filing a notice of appeal as provided by the New Mexico rules of appellate procedure.

N. Each party shall bear its own costs and expenses. The independent arbitrator's fees and other expenses incurred in the conduct of the arbitration shall be assigned at the discretion of the independent arbitrator.

**The 2019 amendment**, effective June 14, 2019, provided that the governing authority may delegate responsibility for the arbitration to the superintendent, and clarified certain terms and provisions in the section; added "Discharge" preceding "appeals", and after "appeals", added "licensed school employees"; in Subsection B, after "governing authority", added "may delegate responsibility for the arbitration to the superintendent. The superintendent as delegate of the governing authority"; and in Subsection L, after "Section", changed "22-10-17" to "22-10A-27".

**The 1991 amendment**, effective June 14, 1991, substituted "employee" for "instructor or certified school administrator" throughout the section; substituted "notice of appeal" for "request for an appeal" in the second sentence in Subsection A and in the first sentence in Subsection B; in Subsection A, substituted "a discharge hearing held" for "his statement to the local school board presented" in the first sentence and deleted the former third sentence which read "The appeal shall be accompanied by a statement of particulars specifying the grounds on which it is contended that the decision was not based on good and just cause"; in Subsection C substituted "professional organization" for

"teachers' or administrators' organization"; in Subsection D, inserted "de novo" in the first sentence and substituted the second and third sentences for the former second sentence which read "The issue to be decided by the independent arbitrator is whether the board's decision to discharge the certified school instructor or certified school administrator was based on good and just cause"; and made minor stylistic changes throughout the section.

**The 1990 amendment**, effective May 16, 1990, inserted "or governing authority" following "local school board" throughout the section; in Subsection A, in the first sentence, inserted "local school" preceding "board" the second time the reference appears and substituted "may appeal the decision" for "may request an appeal"; in the second sentence, inserted "or administrator" and substituted "five working days" for "five calendar days" and, in the third sentence, substituted "The appeal shall be" for "The request for an appeal to an independent arbitrator shall be"; substituted "five working days" for "five calendar days" in the final sentence of Subsection B; in Subsection E, substituted "thirty working days" for "thirty calendar days" in the first sentence and inserted "or certified school administrator" in the second sentence; substituted "labor arbitration rules" for "rules for arbitration" near the end of Subsection H; substituted "thirty working days" for "thirty calendar days" in the third sentence of Subsection K; in Subsection N, substituted "Each party" for "Either party" at the beginning of the first sentence and rewrote the second sentence which read "The arbitrator's fees and other expenses incurred in the conduct of the arbitration shall be borne by the school districts; provided that if the certified school instructor or administrator does not prevail in the proceeding, he shall be responsible for reimbursing the school district for the

costs incurred in the conduct of the arbitration proceeding and the arbitrator's fees"; and deleted former Subsection O relating to compliance with the American arbitration association's rules.

#### ANNOTATIONS

**Considered together, the pre- and post-termination procedures of the School Personnel Act, 22-10A-27 and 22-10A-28 NMSA 1978,** comport with due process requirements. *West v. **Compulsory arbitration is constitutional** and the procedures used in judicial tribunals need not be used in compulsory arbitration, so long as the arbitration procedures are sufficient to guarantee a fair proceeding. Therefore, the provisions of this section mandating compulsory arbitration of the grievances of discharged school employees do not violate an employee's right of access to the courts, or right to jury trial; nor do these provisions unconstitutionally delegate power to a nonjudicial tribunal. *Board of Educ. of Carlsbad Mun. Schs. v. Harrell*, 1994-NMSC-096, 118 N.M. 470, 882 P.2d 511 (1994).

**Unconstitutional limit on judicial review.** — Because due process and the separation of powers principle requires that parties to statutorily mandated arbitration be offered meaningful review of the arbitrator's decision, the provision of Subsection M limiting judicial review of the arbitrator's decision to cases "where the decision was procured by corruption, fraud, deception or collusion" must be stricken as a violation of due process and as an unconstitutional delegation of judicial power. *Board of Educ. of Carlsbad Mun. Schs. v. Harrell*, 1994-NMSC-096, 118 N.M. 470, 882 P.2d 511.

**Harmless error applies to untimely request for discharge hearing.** — The explicit application of the harmless error provision in 22-10A-28(L) NMSA 1978 to 22-10A-27 NMSA 1978, the provision for requesting a discharge hearing, unambiguously expresses the legislature's intent that failure to comply with the five-day time limit, 22-10A-27(B), is deemed harmless error, absent a showing of prejudice. *National Educ. Att'y Gen. No. 88-05.

## 22-10A-29. Compensation payments to discharged personnel.

A. Payment of compensation to a licensed school employee employed by a public school and payment of compensation to a superintendent employed by a governing authority shall terminate as of the date, after a hearing, that a written copy of the decision of the governing authority to discharge the licensed school employee or superintendent is served on the licensed school employee or superintendent. If the compensation of the licensed school employee or superintendent discharged during the term of a written employment contract is to be paid monthly during a twelve-month period for services to be performed during a period less than twelve months, the licensed school employee or superintendent shall be entitled to a pro rata share of the compensation payments due for the period during the twelve months in which no services were to be performed.

B. In the event the action of the governing authority in discharging a licensed school employee or superintendent is reversed on appeal, payment of compensation to the licensed school employee or superintendent shall be reinstated in full but subject to any additional compensation allowed other licensed school employees or superintendents of like qualifications and experience employed by the public school and including reimbursement for compensation during the entire period the compensation was terminated less an offset for any compensation received by the licensed school employee or superintendent from the public school during the period the compensation was terminated.

The 2019 amendment, effective June 14, 2019, clarified certain terms in the section; replaced each occurrence of "school instructor" with "licensed school employee", and replaced each occurrence of "local school board" with "governing authority".

## 22-10A-30. Supervision and correction procedures.

The state board [department] shall prescribe by regulations procedures to be followed by a local school board or the governing authority of a state agency in supervising and correcting unsatisfactory work performance of certified school personnel before notice of intent to discharge is served upon them and by the governing authority of a state agency in supervising and correcting unsatisfactory work performance of certified school instructors before notice of intent to discharge is served upon them. These regulations shall provide that written records shall be kept on all action taken by a local school board or the governing authority of a state agency to improve any person's unsatisfactory work performance and all improvements made in the person's work performance. These written records shall be introduced as evidence at any hearing for the person conducted by the local school board or the governing authority of the state agency.

#### ANNOTATIONS

**Authority of secretary of public education to revoke teachers' licenses.** — Article XII, Section 6 of the New Mexico Constitution, the Uniform Licensing Act, Sections 61-1-1 et seq. NMSA 1978, the Public Education Department Act, Chapter 9, Article 24 NMSA 1978, the Public School Code, Chapter 22 NMSA 1978, and the School Personnel Act, Chapter 22, Article 10A NMSA 1978, do not preclude the secretary of public education from having exclusive authority to make the final decision to revoke a teacher's license. *Skowronski v. N.M. Pub. Educ. Dep't*, 2013-NMCA-034, 298 P.3d 469, cert. granted, 2013-NMCERT-003.

**Secretary's authority to disregard hearing officer's credibility determination.** — Where plaintiff was charged with engaging in inappropriate and improper sexual behavior with a fourteen-year-old victim at a charter school; a hearing officer found that the charges against plaintiff had not been proven by a preponderance of the evidence and recommended that the disciplinary action against plaintiff be dismissed; the secretary of public education reviewed the record before the hearing officer, adopted some of the hearing officer's recommendations and rejected others, and concluded that a preponderance of the evidence warranted revocation and revoked plaintiff's license to teach; the essential difference between the hearing officer's view of the case and that of the secretary was how they viewed the credibility of plaintiff and the victim and the believability of their testimony; the regulations of the public education department provided that the hearing officer had the duty to make proposed findings and conclusions; the secretary was not an appellate reviewer of the hearing officer's findings and conclusions, the secretary had the authority, after reviewing the record, to

modify the hearing officer's findings and conclusions; and the secretary was ultimately responsible for issuing a final decision; and after reviewing the record, the secretary made independent findings of fact that were supported by references to the hearing transcript, the secretary did not exceed the secretary's authority by making the secretary's own credibility or fact-based determinations. *Skowronski v. N.M. Pub. Educ. Dep't*, 2013-NMCA-034, 298 P.3d 469, cert. granted, 2013-NMCERT-003.

**Revocation of teacher's license did not violate due process.** — Where plaintiff was charged with engaging in inappropriate and improper sexual behavior with a fourteen-year-old victim at a charter school; a hearing officer found that the charges against plaintiff had not been proven by a preponderance of the evidence, based in part on the credibility of the witnesses, and recommended that the disciplinary action against plaintiff be dismissed; the secretary of public education reviewed the record and concluded that a preponderance of the evidence warranted revocation; the secretary's conclusions were supported by the record and were based on the secretary's analysis of the facts presented by the witnesses, the contradictions in the facts, and the victim's written statement, plaintiff was not denied due process by the fact that the secretary failed to observe the witnesses' demeanor or by the secretary's failure to defer to the hearing officer's proposed findings of fact. *Skowronski v. N.M. Pub. Educ. Dep't*, 2013-NMCA-034, 298 P.3d 469, cert. granted, 2013-NMCERT-003.

**Revocation of teacher's license was supported by substantial evidence.** — Where plaintiff was charged with engaging in inappropriate and improper sexual behavior with a fourteen-year-old victim; the victim was considering attending the charter school; the owners and operators of the school, who were the godparents of the victim, hosted an event in their home; the victim and plaintiff stayed overnight and slept in the living room where the alleged contact occurred when the victim and plaintiff were alone, the decision of the secretary of public education to revoke plaintiff's teacher's license was supported by substantial evidence. *Skowronski v. ## 22-11-21.1. Member contributions; tax treatment.

Commencing on July 1, 1983, each local administrative unit shall, solely for the purpose of compliance with Section 414(h) of the Internal Revenue Code, pick up, for the purposes specified in that section, member contributions required by Subsection A of Section 22-11-21 NMSA 1978 for all annual salary earned by the member. Member contributions picked up under the provisions of this subsection shall be treated as local administrative unit contributions for purposes of determining income tax obligations under the Internal Revenue Code; however, such picked-up member contributions shall be included in the determination of the member's gross annual salary for all other purposes under federal and state laws. Members' contributions picked up under this section shall continue to be designated member contributions for all purposes of the Educational Retirement Act and shall be considered as part of the member's annual salary for purposes of determining the amount of the member's contribution. The provisions of this section are mandatory, and the member shall have no option concerning the pickup or to receive the contributed amounts directly instead of having them paid by the local administrative unit to the educational retirement system.

**Cross references.** — For the Internal Revenue Code, see 26 U.S.C. § 1 et seq. For Section 414(h) of the Internal Revenue Code, see 26 U.S.C. § 414(h).

## ANNOTATIONS

**Provisions are salary reductions subject to FICA tax.** — "Pickup" provisions of this section and Section 10-11-125 NMSA 1978, whereby the state designated certain employee pension contributions as employer contributions, constituted salary reduction agreements, and, as such, were subject to FICA taxes under 26 U.S.C. § 3121(v)(1)(B), 42 U.S.C. § 409(i)(2), and 26 U.S.C. § 3306(r)(1)(B), following the 1984 amendments to those sections. *Pub. Employees' Ret. Bd. v. Shalala*, 153 F.3d 1160 (10th Cir. 1998).

**Exemption from income tax permitted.** — The legislature may grant a special income tax exemption to one kind of public employee, teachers, yet deny the same exemption to other public employees. *Vaughn v. State Taxation & Revenue Dep't*, 1982-NMCA-112, 98 N.M. 362, 648 P.2d 820, superseded by statute, *Pierce v. State*, 1996-NMSC-001, 121 N.M. 212, 910 P.2d 288.

**Repeal of tax exemption.** — Because no private contractual rights were granted by the retirement plan,

there was no impairment or breach of contract resulting from the 1990 repeal of the tax exemption provision and, although the plan conferred property rights that vested upon accumulating minimum earned service credits, those rights did not include the right to receive pension benefits exempt from tax. *Pierce v. State*, 1996-NMSC-001, 121 N.M. 212, 910 P.2d 288.

Because the retirement plan provided no contractual or vested right to receive an irrevocable tax exemption, there was no constitutionally protected private interest in the tax exemption and there was no due process violation when the exemption was repealed. *Pierce v. State*, 1996-NMSC-001, 121 N.M. 212, 910 P.2d 288.

**"Trading" tax exemptions for health care.** — Repeal of the state income tax exemptions for teacher pensions and public employee pensions does not remedy constitutional defects of the proposed retiree health care act under a theory that those exemptions would be "traded" for retiree health care. Those exemptions are not property rights, irrepealable contractual entitlements, or pension benefits. Hence, elimination of the favorable tax treatment for current retirees is not consideration for a multi-million dollar health care plan that the state proposes to provide them. 1990 Op. Att'y Gen. No. 90-03.

## 22-11-21.2. Salary calculation; limitations.

In establishing a member's average annual salary for determination of retirement benefits, salary in excess of limitations set forth in Section 401(a)(17) of the Internal Revenue Code of 1986, as amended, shall be disregarded. The limitation on compensation for eligible employees shall not be less than the amount allowed pursuant to the Educational Retirement Act in effect on July 1, 1993. For purposes of this section, "eligible employee" means an individual who was a member or participant of the educational retirement plan or alternative retirement plan prior to the first plan year beginning after December 31, 1995. For a member who first becomes a clinical faculty member of the university of New Mexico health sciences center on or after July 1, 1999, the limitation on compensation shall not be in excess of the member's base salary as specified in the member's annual faculty contract or the limitations set forth in Section 401(a)(17) of the Internal Revenue Code of 1986, as amended, whichever is less.

#### ANNOTATIONS

**Nature of retirement rights.** — Benefits under the Educational Retirement Act of this state are retirement allowances and not mere gratuities inasmuch as the employees themselves maintain in part the fund. When an employee meets all of the requirements for retirement - that is to say, when the contingency occurs on which payments are to be made - he or she acquires a vested right in his retirement benefits under the act and any subsequent discharge or other happenings cannot defeat this right. 1959-60 Op. Att'y Gen. No. 60-217.

the actuarial equivalent of the member's retirement benefit, as provided in Section 22-11-30 NMSA 1978, to be effective on the member's retirement in any one of the following optional forms:

(1) OPTION A. An unreduced retirement benefit pursuant to Section 22-11-30 NMSA 1978;

(2) OPTION B. A reduced annuity payable during the member's life with provision that upon the member's death the same annuity shall be continued during the life of and paid to the beneficiary designated by the member in writing at the time of electing this option; or

(3) OPTION C. A reduced annuity payable during the member's life with provision that upon the member's death one-half of this same annuity shall be continued during the life of and paid to the beneficiary designated by the member in writing at the time of electing this option.

B. In the case of Options B and C of Subsection A of this section, the actuarial equivalent of the member's retirement benefit shall be computed on the basis of the lives of both the member and the beneficiary.

C. In the event that the named beneficiary of a retired member who elected Option B or C of Subsection A of this section at the time of retirement predeceases the retired member, the annuity of the retired member shall be adjusted by adding an amount equal to the amount by which the annuity of the retired member was reduced at retirement as a result of the election of Option B or C. The adjustment authorized in this subsection shall be made as follows:

(1) beginning on the first month following the month in which the named beneficiary of a retiree dies applicable to an annuity received by a retiree who retires after June 30, 1987; or

(2) beginning on July 1, 1987 applicable to an annuity received by a retiree who retired prior to July 1, 1987 and otherwise qualifies for the adjustment; provided, however, no adjustment shall be made retroactively.

D. A retired member who is being paid an adjusted annuity pursuant to Subsection C of this section because of the death of the named beneficiary may exercise a one-time irrevocable option to designate another individual as the beneficiary and may select either Option B or Option C of Subsection A of this section; provided that:

(1) the amount of the annuity under the option selected shall be recalculated and have the same actuarial present value, computed on the effective date of the designation, as the annuity being paid to the retired member prior to the designation;

(2) the designation and the amount of the annuity shall be subject to a court order as provided for in Subsection B of Section 22-11-42 NMSA 1978; and

(3) the retired member shall pay one hundred dollars (\$100) to the board to defray the cost of determining the new annuity amount.

E. A retired member who is being paid an annuity under Option B or C of Subsection A of this section with a living designated beneficiary other than the retired member's spouse or former spouse may exercise a one-time irrevocable option to deselect the designated beneficiary and elect to:

(1) designate another beneficiary; provided that:

(a) the retired member shall not have an option to change from the current form of payment;

(b) the amount of the annuity under the form of payment shall be recalculated and shall have the same actuarial present value, computed as of the effective date of the designation, as the amount of annuity paid prior to the designation; and

(2) have future annuity payments made without a reduction as a result of Option B or C.

F. In the event of the death of the member who has not retired and who has completed at least five years' earned service credit, the member shall be considered as retiring on the first day of the month following the date of death, and the benefits due the surviving beneficiary, computed as of that date, shall, except as provided in Subsection J of this section, be commenced effective on the first day of such month in accordance with the terms of Option B of Subsection A of this section. In lieu of the provisions of Option B, the surviving beneficiary may elect to receive payment of all the contributions made by the member, plus interest at the rate set by the board reduced by the sum of any disability benefits previously received by the member, or the surviving beneficiary may choose to defer receipt of the survivor's benefit to whatever age the beneficiary chooses up to the time

the member would have attained age sixty. If the benefit is thus deferred, it shall be calculated as though the member had retired on the first day of the month in which the beneficiary elects to receive the benefit. In the event of the death of the beneficiary after the death of the member and prior to the date on which the beneficiary has elected to receive the beneficiary's benefit, the estate of the beneficiary shall be entitled to a refund of the member's contributions plus interest at the rate earned by the fund during the preceding fiscal year, reduced by the sum of any disability benefits previously received by the member.

G. In the event of the death of a member who has not retired and who has completed at least five years' earned service credit, but who has not designated a beneficiary in writing pursuant to the Educational Retirement Act, the eligible surviving spouse or surviving domestic partner shall be the surviving beneficiary eligible for benefits in accordance with the provisions of Subsection F of this section.

H. In the case of death of a retired member who did not elect either Option B or C of Subsection A of this section and before the benefits paid to the member have equaled the sum of the member's accumulated contributions to the fund plus accumulated interest at the rate set by the board, the balance shall be paid to the beneficiary designated in writing to the director by the member or, if no beneficiary was designated, to the eligible surviving spouse or surviving domestic partner of the member or, if there is no eligible surviving spouse or domestic partner of the member, to the estate of the member.

I. No benefit shall be paid pursuant to this section if the member's contributions have been refunded pursuant to Section 22-11-15 NMSA 1978.

J. In the case of death of a member with less than five years' earned service credit or death of a member who has filed with the director a notice rejecting the provisions of Subsection F of this section, which notice shall be revocable by the member at any time prior to retirement, the member's contributions to the fund plus interest at the rate set by the board shall be paid to the beneficiary designated in writing to the director by the member or, if no beneficiary was designated, to the eligible surviving spouse or surviving domestic partner of the member or, if there is no eligible surviving spouse or domestic partner of the member, to the estate of the member.

**Repeal of tax exemption.** — Because no private contractual rights were granted by the retirement plan, there was no impairment or breach of contract resulting from the 1990 repeal of the tax exemption provision and, although the plan conferred property rights that vested upon accumulating minimum earned service credits, those rights did not include the right to receive pension benefits exempt from tax. *Pierce v. State*, 1996-NMSC-001, 121 N.M. 212, 910 P.2d 288.

Because the retirement plan provided no contractual or vested right to receive an irrevocable tax exemption, there was no constitutionally protected private interest in the tax exemption and there was no due process violation when the exemption was repealed. *Pierce v. State*, 1996-NMSC-001, 121 N.M. 212, 910 P.2d 288.

**"Trading" tax exemptions for health care.** — Repeal of the state income tax exemptions for teacher pensions and public employee pensions does not remedy constitutional defects of the proposed retiree health care act under a theory that those exemptions would be "traded" for retiree health care. Those exemptions are not property rights, irrepealable contractual entitlements, or pension benefits. Hence, elimination of the favorable tax treatment for current retirees is not consideration for a multi-million dollar health care plan that the state proposes to provide them. 1990 Op. Att'y Gen. No. 90-03.

#### ANNOTATIONS

##### Property right in cost-of-living adjustments.

— Any future cost-of-living adjustment to a retirement benefit is merely a year-to-year expectation that, until paid, does not, under the New Mexico constitution, create a vested property right in an annual cost-of-living adjustment calculated according to the statutory formula in effect on the date of the retiree's eligibility for retirement. Once paid, the cost-of-living adjustment becomes a part of the retirement benefit and a property right subject to constitutional protections. *Bartlett v. Cameron*, 2014-NMSC-002.

Where the legislature amended Section 22-11-31 NMSA 1978 in 2013 to reduce future amounts educational retirees might receive as a cost-of-living adjustment; and retirees sought to compel the education retirement board to pay them an annual cost-of-living adjustment, for the entirety of their retirement, calculated according to the cost-of-living adjustment formula in effect on the date of their retirement on the grounds that under Article XX, Section 22 of the New Mexico constitution, the retirees had a vested property interest in future cost-of-living adjustments based on the formula in effect on the date of their retirement, a cost-of-living adjustment to a retirement benefit is provided independently from the obligation and payment of a retirement benefit and retirees do not have a vested property interest in an annual cost-of-living adjustment calculated in accordance with the formula in effect at the time they were eligible for retirement. *Bartlett v. Cameron*, 2014-NMSC-002.

## 22-11-32. Adjustment of benefits.

A. If retirement or disability benefits cause a decrease in the amount of monetary payments due to a member or beneficiary from any public agency, the retirement or disability benefits shall be reduced to result in the maximum total benefits to the member or beneficiary.

B. If there is a change in the effect of retirement or disability benefits on any monetary payments due to a member or beneficiary from any public agency, the retirement or disability benefits

shall be adjusted to result in the maximum total benefits to the member or beneficiary. In no event shall the retirement or disability benefits be increased in an amount greater than that authorized by the Educational Retirement Act.

C. The provisions of this section are mandatory and are not subject to option or election by any member or beneficiary. Each member or beneficiary shall inform the director of all facts necessary for the director to carry out the provisions of this section.

D. If the director, in good faith, seeks to ascertain all facts necessary to comply with provisions of this section, but payment of retirement or disability benefits is made without making an adjustment as provided by this section, neither the board, the director or any public officer or employee shall be liable because of the payment.

E. As used in this section:

(1) "retirement or disability benefits" means retirement or disability benefits payable to a member or beneficiary pursuant to the Educational Retirement Act ;

(2) "public agency" includes the federal government, any department or agency of the federal government, any state and any department, agency and political subdivision of a state; and

(3) "total benefits" means retirement or disability benefits plus any other monetary payments due to the member or beneficiary from any public agency.

## 22-11-33. Earned service credit.

A. Upon a member filing an application for retirement or disability benefits, earned service credit for the time of contributory employment shall be certified by the director and subject to the review of the board.

B. A member shall be certified to have earned service credit for that period of time when the member was engaged in prior employment. Earned service credit shall not be certified for that period of employment for which the contributions have been withdrawn from the fund by the member.

C. Earned service credit shall be certified for periods of employment interrupted for some cause other than retirement or disability. This shall be done if a member withdrawing contributions from the fund for this period returns to the fund, for each year of earned service credit desired, a sum equal to the member's contribution to the fund during this period and an additional sum as interest compounded annually from the date the contributions were withdrawn to the date of payment of the amount of returned contributions at the rate of interest set by the board.

**History:** 1953 Comp., § 77-9-33, enacted by Laws 1967, ch. 16, § 156; 2003, ch. 39, § 9; 2017, ch. 21, § 13.

provided "These payments may be made in installments, and, if the payments made to the fund are insufficient for the restoration of any full year of earned service credit, the member shall be certified to have acquired earned service credit for that period of time which is proportionate to the payments made."

**The 2003 amendment**, effective June 20, 2003, substituted "set by the board" for "earned by the fund during the five-year period immediately preceding the application for the earned service-credit" following "rate of interest" near the middle of Subsection C.

## 22-11-34. Allowed service credit.

A. A member shall be certified to have acquired allowed service credit pursuant to the Internal Revenue Code of 1986 for those periods of time when the member was:

(1) employed prior to July 1, 1967 in a federal educational program within New Mexico, including United States Indian schools and civilian conservation corps camps. This service credit shall be allowed without contribution;

(2) engaged in military service that interrupted the member's employment in New Mexico if the member returned to employment within eighteen months following honorable discharge. This service credit shall be allowed without contribution;

(3) engaged in United States military service or the commissioned corps of the public health service from which the member was honorably discharged; provided that:

(a) the member shall have five years or more of contributory employment to be eligible to purchase allowed service credit pursuant to this paragraph;

(b) the member shall contribute to the fund, for each year of service credit the member elects to purchase, a sum equal to the member's average annual actual salary for the five years preceding the date of the contribution multiplied by the sum of the member contribution rate and the employer contribution rate in effect at the time of the member's written election to purchase, subject to the federal Uniformed Services Employment and Reemployment Rights Act of 1994;

(c) full payment shall be made in a single lump sum within sixty days of the date that the member is informed of the amount of the payment; and

(b) in a United States military dependents' school operated by a branch of the armed forces of the United States;

Effective July 1, 2001, the member or employer under Paragraph (4) of Subsection A of this section shall contribute to the fund for each year of allowed service credit desired an amount equal to the actuarial value of the service purchased as defined by the board. No allowed service credit shall be purchased pursuant to Paragraph (4) of Subsection A of this section unless the member is currently employed by a local administrative unit.

C. No member shall be certified to have acquired allowed service credit:

(1) under any single paragraph or the combination of only Paragraphs (1) and (4) or only Paragraphs (2) and (3) of Subsection A of this section in excess of five years; or

Contributions paid for the member who is not employed shall bear interest at the average rate earned by the fund during the five-fiscal-year period immediately preceding the date of payment. Such interest shall run from the date the member last terminated employment to the date of payment." at the beginning, and substituted "by that act. No allowed service credit shall be purchased pursuant to Paragraph (4) of Subsection A of this section unless the member is currently employed by a local administrative unit." for "thereby" at the end.

### ANNOTATIONS

**Scope of board's authority.** — The legislature, through this section has granted the board the authority to award disability benefits if certain requirements are met. If the board certifies the eligible member to be totally disabled, the board must award benefits. Once the determination of total disability is made, it is the duty of the board to certify the member as disabled. There is nothing in this grant of authority which authorizes the board to refuse to accept an application for disability if the applicant continues to hold a property interest in a bus contract. *Gonzales v. N.M. Educ. Retirement Bd.*, 1990-NMSC-024, 109 N.M. 592, 788 P.2d 348, cert. denied, 498 U.S. 818, 111 S. Ct. 61, 112 L. Ed. 2d 36 (1990).

The medical authority shall recommend to the board that the member either be placed on continuing annual disability or permanent disability or removed from disability status due to a substantial betterment of the member's condition. In the event a substantial betterment of the disability is reported, the board shall determine whether the member is totally disabled for employment and unable to obtain and retain other gainful employment commensurate with the member's background, education and experience. If the board determines that the member is no longer disabled, the payment of the disability benefits shall cease.

B. Payment of disability benefits shall be resumed only after the member has submitted current medical records to the board and the board has determined that the member is totally disabled. A member shall have no right or claim for benefits withheld during a period of suspension.

#### ANNOTATIONS

**State forbidden from discriminating against handicapped in providing education.** — The state is obligated by both federal and state law to provide all its pre-college age children with appropriate educations. Under federal law relating to state programs receiving federal financial assistance, the state is forbidden from discriminating against the handicapped in meeting this obligation. *N.M. Ass'n for Retarded Citizens v. State*, 678 F.2d 847 (10th Cir. 1982).

**Discretionary nature of Public Law 94-142,** appearing as 20 U.S.C. § 1400 et seq., frees the state to participate or not in the acquisition of federal funds under the federal Elementary and Secondary Education Act as it chooses. Its choice not to participate is, without more, a governmental decision that is within the state's power and not subject to judicial inquiry. *N.M. Ass'n for Retarded Citizens v. State*, 495 F. **State has no obligation to seek federal funds.** — The theory that the state has a continuing obligation to seek federal funds to implement educational goals for handicapped children must fail in light of the congressional amendment rendering the federal Elementary and Secondary Education Act discretionary. *N.M. **State's status as monitor over spending of federal funds.** — The state may not technically be required to monitor compliance with § 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794. Its failure to insure compliance by the local school districts, however, implicates it under § 504 insofar as the state's status as the recipient of federal financial assistance obligates it not to permit, directly or indirectly, programs benefiting from federal financial assistance received by the state, to discriminate against handicapped persons within the context of the regulations promulgated under § 504. *N.M. Ass'n for Retarded Citizens v. State*, 495 F. Supp. 391 (D.N.M. 1980), *rev'd on other grounds*, 678 F.2d 847 (10th Cir. 1982).

A school district in which a private, nonsectarian, nonprofit educational training center or residential treatment center is located shall not be considered the resident school district of a school-age person if residency is based solely on the school-age person's enrollment at the facility and the school-age person would not otherwise be considered a resident of the state.

D. For a qualified student in need of special education or school-age person who is placed in a private, nonsectarian, nonprofit educational training center or residential treatment center by a school district or by a due process decision, the school district in which the qualified student or school-age person lives, whether in-state or out-of-state, is responsible for the educational, non-medical care and room and board costs of that placement.

E. For a school-age person placed in a private, nonsectarian, nonprofit educational training center or residential treatment center not as a result of a due process decision but by a parent who assumes the responsibility for such placement, the department shall ensure that the school district in which the facility is located is allocating and distributing the school-age person's proportionate share of the federal Individuals with Disabilities Education Act Part B funds but the state is not required to distribute state funds for that school-age person.

F. For a qualified student or school-age person in need of special education placed in a private, nonsectarian, nonprofit educational training center or residential treatment center by a New Mexico public noneducational agency with custody or control of the qualified student or school-age person or by a New Mexico court of competent jurisdiction, the school district in which the facility is located shall be responsible for the planning and delivery of special education and related

services, unless the qualified student's or school-age person's resident school district has an agreement with the facility to provide such services.

G. Except as provided in Subsection D of this section, the department shall determine which school district is responsible for the cost of educating a qualified student in need of special education who has been placed in a private, nonsectarian, nonprofit educational training center or residential treatment center outside the qualified student's resident school district. The department shall determine the reasonable reimbursement owed to the receiving school district.

H. A local school board, in consultation with the department, may make an agreement with a private, nonsectarian, nonprofit educational training center or residential treatment center for educating qualified students in need of special education and for whom the school district is responsible for providing a free appropriate public education under the federal Individuals with Disabilities Education Act and for providing payment for that education. All financial agreements between local school boards and private, nonsectarian, nonprofit educational training centers and residential treatment centers must be negotiated in accordance with rules promulgated by the department.

I. All agreements between local school boards and private, nonsectarian, nonprofit educational training centers and residential treatment centers must be reviewed and approved by the secretary. The agreements shall ensure that all qualified students placed in a private, nonsectarian, nonprofit educational training center or residential treatment center receive the education to which they are entitled pursuant to federal and state laws. All agreements must provide for:

- (1) student evaluations and eligibility;
- (2) an educational program for each qualified student that meets state standards for such programs, except that teachers employed by private schools are not required to be highly qualified;
- (3) special education and related services in conformance with an individualized education program that meets the requirements of federal and state law; and
- (4) adequate classroom and other physical space provided at the private, nonsectarian, nonprofit educational training center or residential treatment center that allows the school district to provide an appropriate education.

J. The agreements must also acknowledge the authority and responsibility of the local school board and the department to conduct on-site evaluations of programs and student progress to ensure that the education provided to the qualified student is meeting state standards.

K. A qualified student for whom the state is required by federal law to provide a free appropriate public education and who is attending a private, nonsectarian, nonprofit educational training center or a residential treatment center is a public school student and shall be counted in the special education membership of the school district that is responsible for the costs of educating the student as provided in the individualized education program for the student.

L. The department shall adopt the format to report individual student data and costs for any qualified student or school-age person attending public or private educational training centers or residential treatment centers and shall include those reports in the student teacher accountability reporting system by using the same student identification number issued to a public school student pursuant to Section 22-2C-11 NMSA 1978 or by assigning a unique student identifier for school-age persons, including those who are not residents of this state but who are attending a private, nonsectarian, nonprofit educational training center or residential treatment center in this state. Every public and private educational training center and every public and private residential treatment center that serves school-age persons in this state shall comply with this provision.

M. The department shall promulgate rules to carry out the provisions of this section.

### **22-13-13.2. Breakfast program required; waiver; distribution of funds.**

A. School districts and charter schools shall establish a "breakfast after the bell program" to provide free breakfast, after the instructional day has begun, to all students attending a public school in which eighty-five percent or more of the enrolled students were eligible for free or reduced-price lunch under the National School Lunch Act during the prior school year.

B. A school district or charter school that includes a public school in which fewer than eighty-five percent of the enrolled students were eligible for free or reduced-price lunch during the prior school year under the National School Lunch Act may establish a breakfast after the bell program to provide free breakfast, after the instructional day has begun, to all students attending that public school; provided that the program complies with all applicable department rules relating to the breakfast after the bell program authorized by this section.

C. Nothing in this section shall be interpreted to prohibit a school that establishes a breakfast after the bell program under the provisions of Subsection A or B of this section from beginning breakfast service before the start of the instructional day; provided that the school also serves breakfast after the beginning of the instructional day in the location of its choice, including the cafeteria, classroom, on the bus, or by providing a hand-carried breakfast.

D. The school district or charter school may apply to the department for a waiver of the breakfast after the bell program required under the provisions of Subsection A of this section if the school district or charter school can demonstrate that providing the program will result in undue financial hardship for the school district or charter school.

E. The department shall award funding to each school district or charter school that establishes a breakfast after the bell program under the provisions of this section for providing free breakfast to students on a per-meal basis at the federal maximum rate of reimbursement as set forth annually by the federal secretary of agriculture for educational grants awarded under the authority of the secretary. School districts and charter schools do not need to demonstrate their expenses to receive funding pursuant to this section.

F. Disbursements for the breakfast after the bell program shall be paid in sequential order, until the state breakfast after the bell funds are exhausted. School districts and charter schools whose public schools have the highest percentage of enrolled students eligible for free or reduced-price lunch under the National School Lunch Act shall be paid first. School districts and charter schools whose public schools have the lowest percentage of enrolled students eligible for free or reduced-price lunch under the National School Lunch Act shall be paid last.

G. By June 15 of each year, each school district and charter school seeking state breakfast after the bell funds shall submit to the department the following information:

(1) the number of breakfasts served at no charge by each of its public schools during the previous school year; and

(2) the federal reimbursement rate for each breakfast served.

H. When calculating the amount of breakfast after the bell program funding that is due a public school, the department shall assume that student participation will remain at the same level as the previous year. If a school district or charter school has not previously received state breakfast after the bell funding, the department shall assume that ninety percent of the student population of an eligible public school will participate in the breakfast after the bell program and shall fund the public school's program accordingly.

I. By August 1 of each year, the department shall inform eligible school districts and charter schools of the amount of breakfast after the bell funding they will receive during the upcoming school year.

J. The department shall promulgate rules necessary for implementation of this section, including:

(1) standards for breakfast after the bell programs that meet federal school breakfast program standards;

(2) procedures for waiver requests and the award of waivers as provided for in Subsection D of this section, including what constitutes financial hardship; and

(3) procedures for funding school districts and charter schools.

B. If a student owes money for five or more meals, a school shall:

(1) check the state list of students categorically eligible for free meals to determine if the student is categorically eligible;

(2) make at least two attempts, not including the application or instructions included in a school enrollment packet, to reach the student's parent or guardian and have the parent or guardian fill out a meal application; and

(3) require a principal, assistant principal or counselor to contact the parent or guardian to offer assistance with a meal application, determine if there are other issues within the household that have caused the child to have insufficient funds to purchase a school meal and offer any other assistance that is appropriate.

(2) "reduced-price-eligible student" means a student who meets the federal income eligibility guidelines for family-size income levels for meals at a reduced price pursuant to the national school lunch program and the federal school breakfast program.

B. School districts and charter schools that administer a school breakfast or school lunch program shall not charge a reduced-price-eligible student a reduced-price copayment for meals.

C. The department shall provide funding to each school district and charter school that administers a school breakfast or school lunch program to cover the cost of eliminating reduced-price copayments. Funding shall be based on a per-meal basis at the difference between the federal free meal rate and the reduced-price copayment rate. When calculating the amount due a school district or charter school, the department shall assume that the number of reduced-price-eligible students will remain at the same level as the previous year. If a school district or charter school has not previously had a school breakfast program or school lunch program in which meals were served to reduced-price-eligible students, the department shall work with the school district or charter school to determine an accurate estimate of funding for the program.

D. By August 1 of each year, the department shall inform school districts and charter schools of the amounts the school districts and charter schools will receive to offset the elimination of reduced-price copayments for the upcoming school year. School districts and charter schools are not required to demonstrate their expenses to receive funding pursuant to this section.

## 22-14-31. Pre-apprenticeship programs.

### A. As used in this section:

- (1) "apprenticeable trade" means a skilled trade that possesses the following characteristics:
  - (a) it is customarily learned in a practical way through a structured, systematic program of on-the-job supervised training;
  - (b) it is clearly identified and commonly recognized throughout an industry;
  - (c) it involves manual, mechanical or technical skills and knowledge that require a minimum of two thousand hours of on-the-job work experience; and
  - (d) it requires related instruction to supplement on-the-job training;
- (2) "apprenticeship" means a formal educational method for training a person in a skilled trade that combines supervised employment with classroom study;
- (3) "course of instruction" means an organized and systematic program of study designed to provide the pre-apprentice with knowledge of the theoretical subjects related to one or more specific apprenticeable trades and that meets apprenticeship-related instruction requirements; provided that "course of instruction" may include hands-on training but does not include on-the-job training;
- (4) "industry instructor" means a person who is:
  - (a) working or has worked in an apprenticeable trade for the number of years required by established industry practices of the particular trade to be an industry-recognized expert in the trade; or
  - (b) a career-technical faculty member at a public post-secondary educational institution;
- (5) "local school board" includes the governing body of a charter school;
- (6) "pre-apprentice" means a public school student who is enrolled in a pre-apprenticeship program;
- (7) "pre-apprenticeship program" means a local school board-approved course of instruction offered through a provider that results, upon satisfactory completion of the program, in a certificate of completion that is acceptable to an apprenticeship training program registered with the apprenticeship council; and
- (8) "provider" means a registered apprenticeship program, an employer of an apprenticeable trade, a union, a trade association, a post-secondary educational institution or other person approved by the local school board to provide a pre-apprenticeship program.

B. Any school district or charter school may allow pre-apprenticeship programs to be offered to qualified eleventh and twelfth grade students. The local school board shall only approve providers and pre-apprenticeship programs, including courses of instruction and industry instructors, that meet apprenticeship requirements of the apprenticeship council or the apprenticeship requirements of an appropriate nationally recognized trade organization. Pre-apprenticeship programs shall meet department content and performance standards and shall be provided at no cost to students.

C. A person may apply to the local school board to become a provider by submitting an application in the form prescribed by the local school board. The application shall include:

(1) the pre-apprenticeship program to be offered by the provider, including the course of instruction and the provision of tools, supplies and textbooks that will be provided by the pre-apprenticeship program;

(2) a description of the way in which a pre-apprentice's coursework and program participation will be evaluated and reported as grades to the high school;

(3) a description of the qualifications for pre-apprentices, the way in which students will be recruited and accepted into the pre-apprenticeship program and the circumstances under which a pre-apprentice may be dismissed from the pre-apprenticeship program;

(4) the names and qualifications of the pre-apprenticeship program's industry instructors;

(5) a description of the location where the pre-apprenticeship program will be conducted; and

(6) any other information the local school board deems necessary to determine the fitness of the applicant to deliver a pre-apprenticeship program and the appropriateness of the program in achieving school district or charter school goals.

D. In approving an application, the local school board shall include its approvals of the provider, the pre-apprenticeship program and the industry instructors. If a single applicant proposes to offer more than one pre-apprenticeship program, each program and its industry instructors shall be approved by the local school board.

E. Pre-apprenticeship programs shall be designed so that pre-apprentices may earn elective credits toward high school graduation and meet requirements for apprenticeship-related supplemental instruction or post-secondary education course credits. Pre-apprenticeship programs shall be offered during the school day whenever possible. Programs may be conducted at industry locations, including union halls or other industry training facilities; at existing school facilities, if available; or at any other location approved by the local school board.

G. Once a provider and pre-apprenticeship program have been approved, the provider shall recruit students and accept and retain or dismiss them as provided in the provider's approved application.

H. Once accepted into a pre-apprenticeship program, a student may withdraw only with the approval of the high school principal.

The notification shall include a plan for the continuation of the pre-apprenticeship program of the pre-apprentices currently enrolled in the provider's program.

The school district or charter school may act on the information received from the background check and refuse to approve a person as an industry instructor. An industry instructor shall provide for the safety of students under the industry instructor's care in the same manner

as required of licensed school employees and shall not allow persons who have not been vetted through the background check process to have unsupervised contact with students.

#### ANNOTATIONS

##### Constitutionality of textbook loan program.

The Instructional Material Law (IML), §§ 22-15-1 to -14 NMSA 1978, in which the New Mexico public education department purchases textbooks that are loaned free of charge to public and private school students enrolled in first through twelfth grade and in early childhood education programs, does not violate Article IV, Section 31, Article IX, Section 14, or Article XII, Section 3 of the New Mexico constitution. The textbook loan program, which provides a generally available public benefit to students, does not result in the use of public funds in support of private schools as prohibited by Article XII, Section 3, and is consistent with Article IV, Section 31, which addresses appropriations for educational purposes, and Article IX, Section 14, which limits any donation to or in aid of any person, association or public or private corporation. *Moses v. Ruszkowski*, 2019-NMSC-003.

**Constitutionality.** — N.M. Const., Art. XII, § 3 expressly prohibits the appropriation of public funds to sectarian, denominational or private schools. The Instructional

Material Law, §§ 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, violates N.M. Const., Art. XII, § 3, because the constitutional provision expressly restricts the use of public funds to other than sectarian schools and expressly prohibits the appropriation of educational funds to private schools. *Moses v. Skandera*, 2015-NMSC-036, 367 P.3d 838, rev'g 2015-NMCA-036, 346 P.3d 396, vacated sub nom. *N.M. Ass'n of Non-public Sch. v. Moses*, 137 S.Ct. 2325 (2017) (mem.).

Where petitioners filed a complaint for declaratory judgment against the secretary of the New Mexico public education department seeking a declaration that the state issuing instructional materials to students attending private schools is unconstitutional, the New Mexico supreme court held that the Instructional Material Law, §§ 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, violates N.M. Const., Art. XII, § 3, because the constitutional provision expressly restricts the use of public funds to other than sectarian schools and expressly prohibits the appropriation of educational funds to private schools. *Moses v. Skandera*, 2015-NMSC-036, 367 P.3d 838, rev'g 2015-NMCA-036, 346 P.3d 396, vacated

*sub nom. N.M. Ass'n of Non-public Sch. v. Moses*, 137 S.Ct. 2325 (2017) (mem.).

The Instructional Material Law (IML), Sections 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, does not violate N.M. Const., art. XII, § 3, because the focus of the IML is not to support private schools, but to provide instructional material for the benefit of students, the program is secular in nature, and the state controls the use and disposition of the instructional material; although the private schools receive some benefit, N.M. Const., art. XII, § 3 will not be interpreted to prohibit indirect and incidental benefit when the legislative purpose of the IML does not focus on support of private schools. *Moses v. Skandera*, 2015-NMCA-036, cert. granted, 2015-NMCERT-001.

The Instructional Material Law (IML), Sections 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, does not violate N.M. Const., art. IX, § 14, because under the IML, there is no donation to a private school because there is neither a gift nor an allocation or appropriation of something of value without consideration; although private schools receive possession of the instructional material, as agents for the students, they never have an ownership interest in the instructional

material. *Moses v. Skandera*, 2015-NMCA-036, cert. granted, 2015-NMCERT-001.

The Instructional Material Law (IML), Sections 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, does not violate N.M. Const., art. IV, § 31, because under the IML, no funds are appropriated to any private school; the mere indirect or incidental benefit to the private schools does not violate N.M. Const., art. IV, § 31. *Moses v. Skandera*, 2015-NMCA-036, cert. granted, 2015-NMCERT-001.

The Instructional Material Law (IML), Sections 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, does not violate N.M. Const., art. II, § 11, which serves the same goals as the Establishment Clause of the First Amendment of the United States Constitution; the United States Supreme Court has made clear that textbook and instructional material programs that benefit all children, regardless of the school of their attendance, do not conflict with the Establishment Clause. *Moses v. Skandera*, 2015-NMCA-036, cert. granted, 2015-NMCERT-001.

Const., art. IV, § 31, because under the IML, no funds are appropriated to any private school; the mere indirect or incidental benefit to the private schools does not violate N.M. Const., art. ## ANNOTATIONS

### **Constitutionality of textbook loan program.** —

The Instructional Material Law (IML), §§ 22-15-1 to -14 NMSA 1978, in which the New Mexico public education department purchases textbooks that are loaned free of charge to public and private school students enrolled in first through twelfth grade and in early childhood education programs, does not violate Article IV, Section 31; Article IX, Section 14, or Article XII, Section 3 of the New Mexico constitution. The textbook loan program, which provides a generally available public benefit to students, does not result in the use of public funds in support of private schools as prohibited by Article XII, Section 3, and is consistent with Article IV, Section 31, which addresses appropriations for educational purposes, and Article IX, Section 14, which limits any donation to or in aid of any person, association or public or private corporation. *Moses v. Ruszkowski*, 2019-NMSC-003.

**Constitutionality.** — N.M. Const., Art. XII, § 3 expressly prohibits the appropriation of public funds to sectarian, denominational or private schools. The Instructional Material Law, §§ 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, violates N.M. Const., Art. XII, § 3, because the constitutional provision expressly restricts the use of public funds to other than sectarian schools and expressly prohibits the appropriation of educational funds to private schools. *Moses v. Where petitioners filed a complaint for declaratory judgment against the secretary of the New Mexico public education department seeking a declaration that the state issuing instructional materials to students attending private schools is unconstitutional, the New Mexico supreme court held that the Instructional Material Law, §§ 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, violates N.M. Const., art. XII, § 3, because the focus of the IML is not to support private schools, but to provide instructional material for the benefit of students, the program is secular in nature, and the state controls the use and disposition of the instructional material; although the private schools receive some benefit, N.M. Const., art. XII, § 3 will not be interpreted to prohibit indirect and incidental benefit when the legislative purpose of the IML does not focus on support of private schools. *Moses v. Const., art. IX, § 14, because under the IML, there is no donation to a private school because there is neither a gift nor an allocation or appropriation of something of value without consideration; although private schools receive possession of the instructional material, as agents for the students, they never have an ownership interest in the instructional material. *Moses v. Skandera*, 2015-NMCA-036, cert. granted, 2015-NMCERT-001.

## 22-15-8. Multiple list; selection; review process.

A. The department shall adopt a multiple list to be made available to students pursuant to the Instructional Material Law [22-15-1 through 22-15-14 NMSA 1978]. At least ten percent of instructional material on the multiple list concerning language arts and social studies shall contain material that is relevant to the cultures, languages, history and experiences of multi-ethnic students. The department shall ensure that parents and other community members are involved in the adoption process at the state level.

B. Pursuant to the provisions of the Instructional Material Law, each school district, state institution or private school as agent may select instructional material for the use of its students from the multiple list adopted by the department. Local school boards shall give written notice to parents and other community members and shall invite parental involvement in the adoption process at the district level. Local school boards shall also give public notice, which notice may include publication in a newspaper of general circulation in the school district.

C. The department shall establish by rule an instructional material review process for the adoption of instructional material on the multiple list. The process shall include:

(1) a summer review institute at which basal materials in the content area under adoption will be facilitated by content and performance experts in the content area and reviewed by reviewers;

(2) that level two and level three-A teachers are reviewers of record; provided that level one teachers, college students completing teacher preparation programs, parents and community leaders will be recruited and partnered with the reviewers of record;

(3) that reviewed materials shall be scored and ranked primarily against how well they align with state academic content and performance standards, but research-based effectiveness may also be considered; and

(4) the adoption of supplementary materials that are not reviewed.

The Instructional Material Law (IML), 22-15-1 through 22-15-14 NMSA 1978, in which the New Mexico public education department purchases and distributes instructional material to school districts, state institutions, and private schools as agents for the benefit of eligible students, does not violate N.M. Const., art. XII, § 3, because the focus of the IML is not to support private schools, but to provide instructional material for the benefit of students, the program is secular in nature, and the state controls the use and disposition of the instructional material; although the private schools receive some benefit, N.M. Const., art. XII, § 3 will not be interpreted to prohibit indirect and incidental benefit when the legislative purpose of the IML does not focus on support of private schools. *Moses v. Const., art. IX, § 14, because under the IML, there is no donation to a private school because there is neither a gift nor an allocation or appropriation of something of value without consideration; although private schools receive possession of the instructional material, as agents for the students, they never have an ownership interest in the instructional material. *Moses v. ## 22-15-9. Distribution of funds for instructional material.

A. On or before April 1 of each year, the department shall allocate to each school district, state institution or private school as agent not less than ninety percent of its estimated entitlement as determined from the estimated forty-day membership for the next school year. A school district's, state institution's or private school's entitlement is that portion of the total amount of the annual appropriation less a deduction for a reasonable reserve for emergency expenses that its forty-day membership bears to the forty-day membership of the entire state. For the purpose of this allocation, additional pupils shall be counted as six pupils. The allocation for adult basic education shall be based on a full-time equivalency obtained by multiplying the total previous year's enrollment by .25. The department shall transfer the amount of the allocation for adult basic education to the adult basic education fund.

B. On or before January 15 of each year, the department shall recompute each entitlement using the forty-day membership for that year, except for adult basic education, and shall allocate the balance of the annual appropriation adjusting for any over- or under-estimation made in the first allocation.

C. An amount not to exceed fifty percent of the allocations attributed to each school district or state institution may be used for instructional material not included on the multiple list provided for in Section 22-15-8 NMSA 1978, and up to twenty-five percent of this amount may be used for other classroom materials. The local superintendent may apply to the department for a waiver of the use of funds allocated for the purchase of instructional material either included or not included on the multiple list. If the waiver is granted, the school district shall not be required to submit a budget adjustment request to the department. Private schools may expend up to fifty percent of their instructional material funds for items that are not on the multiple list; provided that no funds shall be expended for religious, sectarian or nonsecular materials; and provided further that all instructional material purchases shall be through an in-state depository.

D. The department shall establish procedures for the distribution of funds directly to school districts and state institutions. Prior to the final distribution of funds to any school district or charter school, the department shall verify that the local school board or governing body has adopted a policy that requires that every student have a textbook for each class that conforms to curriculum requirements and that allows students to take those textbooks home.

E. The department shall provide payment to an in-state depository on behalf of a private school for instructional material.

F. A school district or state institution that has funds remaining for the purchase of instructional material at the end of the fiscal year shall retain those funds for expenditure in subsequent years. Any balance remaining in an instructional material account of a private school at the end of the fiscal year shall remain available for reimbursement by the department for instructional material purchases in subsequent years.

## ANNOTATIONS

### Constitutionality of textbook loan program. —

The Instructional Material Law (IML), §§ 22-15-1 to -14 NMSA 1978, in which the New Mexico public education department purchases textbooks that are loaned free of charge to public and private school students enrolled in first through twelfth grade and in early childhood education programs, does not violate Article IV, Section 31, Article IX, Section 14, or Article XII, Section 3 of the New Mexico constitution. The textbook loan program, which provides a generally available public benefit to students, does not result in the use of public funds in support of private schools as prohibited by Article XII, Section 3, and is consistent with Article IV, Section 31, which addresses appropriations for educational purposes, and Article IX, Section 14, which limits any donation to or in aid of any person, association or public or private corporation. *Moses v. ## 22-15A-9. Educational technology fund; distribution.

A. Upon annual review and approval of a school district's educational technology plan, the bureau shall determine a separate distribution from the educational technology fund for each school district.

B. On or before July 31 of each year, the bureau shall distribute money in the educational technology fund directly to each school district in an amount equal to ninety percent of the school district's estimated adjusted entitlement calculated pursuant to Subsection C of this section. A school district's unadjusted entitlement is that portion of the total amount of the annual appropriation that the projected membership bears to the projected membership of the state. Kindergarten membership shall be calculated on a one-half full-time-equivalent basis.

C. A school district's estimated adjusted entitlement shall be calculated by the bureau using the following procedure:

(1) a base allocation is calculated by multiplying the total annual appropriation by seventy-five thousandths percent;

(2) the estimated adjusted entitlement amount for a school district whose unadjusted entitlement is at or below the base allocation shall be equal to the base allocation. For a school district whose unadjusted entitlement is higher than the base allocation, the estimated adjusted entitlement shall be calculated pursuant to Paragraphs (3) through (6) of this subsection;

(3) the total projected membership in those school districts that will receive the base allocation pursuant to Paragraph (2) of this subsection is subtracted from the total projected state membership;

(4) the total of the estimated adjusted entitlement amounts that will be distributed to those school districts receiving the base allocation pursuant to Paragraph (2) of this subsection is subtracted from the total appropriation;

(5) the projected membership for the district is divided by the result calculated pursuant to Paragraph (3) of this subsection; and

(6) the estimated adjusted entitlement amount for the school district equals the number calculated pursuant to Paragraph (5) of this subsection multiplied by the value calculated pursuant to Paragraph (4) of this subsection.

D. On or before January 30 of each year, the bureau shall recompute each adjusted entitlement using the final funded membership for that year and, without making any additional reductions, shall allocate the balance of the annual appropriation adjusting for any over- or under-projection of membership.

E. A school district receiving funding pursuant to the Technology for Education Act is responsible for the purchase, distribution, use and maintenance of educational technology.

F. As used in this section, "membership" means the total enrollment of qualified students, as defined in the Public School Finance Act [Chapter 22, Article 8 NMSA 1978], on the current roll of class or school on a specified day. The current roll is established by the addition of original entries and reentries minus withdrawals. Withdrawal of students, in addition to students formally withdrawn from the public school, includes students absent from the public school for as many as ten consecutive school days.

The 2005 amendment, effective April 6, 2005, in Subsection C(6), provided that the estimated adjusted

entitlement amount for the school district, equals the number calculated pursuant to Subsection C(5) multiplied by the value calculated pursuant to Subsection C(6); and deleted former Subsections C(7) through (13).

**The 2004 amendment**, effective May 19, 2004, amended Subsection C to rewrite Paragraph (7) to substitute for "legislative council service" the "department of finance and administration" and to add at the end of the paragraph "An appropriation made in a fiscal year shall be deemed to be accepted by a school district unless, prior to July 15 of the fiscal year following the appropriation, the district notifies the department of finance and administration and the public education department that the district is rejecting the appropriation" and to amend Paragraph (10) to substitute "the immediately two preceding" for "prior" preceding "fiscal years".

### 22-15B-1. Statewide educational technology opportunity program; findings and purpose.

A. The legislature finds that:

- (1) local school districts need increased access to information technologies, extensive professional development and sustained network support to use technology effectively;

(4) there are large nonprofit programs in place to build and rehabilitate computers for New Mexico classrooms using a combination of donated, surplus and purchased equipment.

B. The purpose of this act is to establish a statewide educational technology opportunity program for New Mexico's teachers and students by creating a partnership between private industry, state government and local school districts that will build, distribute and install low-cost, network-ready computers in New Mexico classrooms over the next three years.

B. Upon the approval of an application for computer assistance, the contractor shall distribute the allocated computers directly to the classroom and teacher. Pursuant to the contract and upon the receipt of an invoice, the state department of public education shall reimburse the contractor for the state portion of the cost of the computer assistance granted.

C. The state department of public education [public education department], after consulting with private industry, local school districts and other interested parties, shall promulgate such rules as are necessary to implement the statewide educational technology opportunity program.

## 22-16-6. Reimbursement of parents or guardians.

A local school board may, subject to regulations adopted by the state board [department], provide per capita or per mile reimbursement to a parent or guardian in cases where regular school bus transportation is impractical because of distance, road conditions or sparseness of population or in cases where the local school board has authorized a parent to receive reimbursement for travel costs incurred by having a child attend a school outside the child's attendance zone.

**History:** 1953 Comp., § 77-14-6, enacted by Laws 1967, ch. 16, § 224; 1973, ch. 337, § 1; 1990 (1st S.S.), ch. 9, § 12; 1993, ch. 226, § 48; 1995, ch. 208, § 8.

See 9-24-15 NMSA 1978.

**The 1995 amendment,** effective July 1, 1995, deleted "and with the approval of the state transportation director" preceding "provide" near the beginning of the section, and deleted the former last sentence of the section which read: "A schedule providing for the reimbursement of parents and guardians in an amount that is reasonable and comparable to that which would be paid to a school bus contractor for the transportation of pupils, when computation for payment excludes the factors of size and age of school bus equipment and the driver's salary, shall be established by the state transportation division of the department of education with the approval of the state board."

**The 1993 amendment,** effective July 1, 1993, deleted the subsection designation "A" at the beginning of the section and deleted former Subsections B and C, pertaining to the requirement for application for reimbursement of a parent for transportation costs and defining "attendance zone".

## 22-18-2. Bond elections; qualification of voters; calling for bond elections.

A. Before any general obligation bonds are issued, a local school board of a school district shall submit to a vote of the qualified electors of the school district the question of creating a debt by issuing the bonds, and a majority of those persons voting on the question shall vote for issuing the general obligation bonds.

B. The election on the question of creating a debt by issuing general obligation bonds shall be held pursuant to the provisions of the Local Election Act [Chapter 1, Article 22 NMSA 1978]. For the purpose of determining the number of votes cast for governor in the school district at the last preceding general election, any portion of a voting division within the school district shall be construed to be wholly within the school district. A local school board shall call for a bond election at the next regular local or special election within ninety days following the date a properly signed petition is filed with it; provided that the timing of the election does not conflict with the provisions of Section 1-24-1 NMSA 1978.

## 22-18-6. Repealed.

**Repeals.** — Laws 2001, ch. 61, § 3 repealed 22-18-6 NMSA 1978, as enacted by Laws 1967, ch. 16, § 233, regarding the authority of local school boards to issue bonds,

effective June 15, 2001. For provisions of former section, see the 2000 NMSA 1978 on *NMOneSource.com*.

## 22-18-7. Authority to issue bonds.

If a majority of those persons voting on a question submitted to the voters in a bond election vote for creating a debt by issuing general obligation bonds, the local school board may, subject to the approval of the attorney general, proceed to issue the bonds.

**History:** 1953 Comp., § 77-15-7, enacted by Laws 1967, ch. 16, § 234.

## 22-18-8. Restriction on bond elections.

In the event a majority of those persons voting on a question submitted to the voters in a bond election votes against creating a debt by issuing general obligation bonds, no bond election shall be held on the same question for a period of two years from the date of the bond election.

**History:** 1953 Comp., § 77-15-8, enacted by Laws 1967, ch. 16, § 235; 2018, ch. 79, § 93.

The 2018 amendment, effective July 1, 2018, removed an exception to the provision prohibiting a bond election within two years of a bond election in which a majority of voters voted against creating a debt by issuing general obligation bonds; and after "the date of the bond election", deleted the remainder of the subsection, which related to the presentation of a petition calling for a bond election.

### ANNOTATIONS

**Bond elections on the "same question".** — Alamosogordo school district's proposed February, 1989 bond question, which differed materially in amount of bonded indebtedness and in purpose, was not the "same question" that the voters defeated in May, 1987, and therefore did not violate this section. 1988 Op. Att'y Gen. No. 88-53.

## 22-18-9. Approval of bond issue by attorney general.

No issue of bonds shall be valid or binding on any school district unless prior to the issuance of the bonds the attorney general approves the bond issue as to form and legality. The written approval of the attorney general shall be made a part of the transcript of the proceedings in connection with each bond issue. The local school board of each school district proposing to issue bonds shall provide the attorney general with all information necessary for this consideration of the form and legality of the bond issue.

## 22-18-10. Bond election contests.

## 22-18-13. Timely payment of school district obligations.

A. Whenever a paying agent has not received payment of principal or interest on school district general obligation bonds on the business day immediately prior to the date on which the payment is due, the paying agent shall so notify the department of finance and administration, the department and the school district by telephone, facsimile or other similar communication, followed by written verification, of the payment status. The department of finance and administration shall immediately contact the school district and determine whether the school district will make the payment by the date on which it is due.

B. Except as provided in Subsection C of this section, if the school district indicates that it will not make the payment by the date on which it is due, the department of finance and administration shall forward the amount in immediately available funds necessary to make the payment due on the bonds to the paying agent and shall withhold an equal amount from the next succeeding payment of the state equalization guarantee distribution. If the amount of the next succeeding payment is insufficient to pay the amount due, the department of finance and administration shall withhold amounts from each succeeding payment of the state equalization guarantee distribution, including payments to be made in succeeding fiscal years but not more than twelve consecutive months of payments, until the total payment of principal and interest due has been withheld.

C. For a payment due on a bond issued on or after the effective date of this 2007 act, if the school district indicates that it will not make the payment by the date on which it is due, the department of finance and administration shall forward the amount in immediately available funds

necessary to make the payment due on the bonds to the paying agent from the current fiscal year's undistributed state equalization guarantee distribution to that school district and, if not otherwise repaid by the school district from other legally available funds, withhold the distributions from the school district until the amount has been recouped by the department of finance and administration, provided that, if the amount of the undistributed state equalization guarantee distribution in the current fiscal year is less than the payment due on the bond, the department of finance and administration shall:

(1) forward in immediately available funds to the paying agent an amount equal to the total amount of the school district's undistributed state equalization guarantee distribution and, if not otherwise repaid by the school district from other legally available funds, withhold all distributions to the school district for the remainder of the fiscal year; and

(2) on July 1 of the following fiscal year, forward in immediately available funds an amount equal to the remaining amount due to the paying agent from that year's state equalization guarantee distribution and, if not otherwise repaid by the school district from other legally available funds, withhold an equal amount from the distribution to the school district until the amount paid has been recouped in full.

D. The amounts forwarded to the paying agent by the department of finance and administration shall be applied by the paying agent solely to the payment of the principal or interest due on the general obligation bonds of the school district. The department of finance and administration shall notify the department, the chief financial officer of the school district, the department of finance and administration, the legislative finance committee and the legislative education study committee of amounts withheld and payments made pursuant to this section.

E. Upon the issuance of general obligation bonds by a school district, the school district shall file with the department of finance and administration a copy of the resolution that authorizes the issuance of the bonds, a copy of the official statement or other offering document for the bonds, the agreement, if any, with the paying agent for the bonds and the name, address and telephone number of the paying agent; provided, however, that the failure of a school district to file the information shall not affect the obligation of the department of finance and administration to withhold the state equalization guarantee distribution pursuant to this section.

F. The state hereby covenants with the purchasers and holders of general obligation bonds issued by school districts that it will not repeal, revoke or rescind the provisions of this section or modify or amend the same so as to limit or impair the rights and remedies granted by this section; provided that nothing in this subsection shall be deemed or construed to require the state to continue the payment of a state equalization guarantee distribution to any school district or to limit or prohibit the state from repealing, amending or modifying any law relating to the amount of state equalization guarantee distributions to school districts or the manner of payment or the timing thereof. Nothing in this section shall be deemed or construed to create a debt of the state with respect to the bonds within the meaning of any state constitutional provision or to create any liability except to the extent provided in this section.

G. Whenever the department of finance and administration is required by this section to make a payment of principal or interest on bonds on behalf of a school district, the department shall initiate an audit of the school district to determine the reason for the nonpayment and to assist the school district, if necessary, in developing and implementing measures to ensure that future payments will be made when due.

H. Whenever the department of finance and administration makes a payment of principal and interest on bonds or other obligations of a school district and withholds amounts from the state equalization guarantee distribution pursuant to this section because of the failure to collect property taxes, the school district may transfer delinquent property taxes later collected out of the school district's bond redemption fund and into its general fund.

I. This section applies to general obligation bonds issued by a school district on or after July 1, 2003.

**History:** Laws 2003, ch. 46, § 1; 2007, ch. 102, § 1.

**Compiler's notes.** — The phrase "the effective date of this 2007 act" in Subsection C, is March 30, 2007, the effective date of Laws 2007, ch. 102, § 1.

In determining the order of transfer, money in the state-support reserve fund shall be transferred first, and if that amount is insufficient then the general fund operating reserve shall be used. 22-18B-2. Findings and purpose.	22-18B-5. Public school capital outlay council; allocation.

#### 22-18B-1. Short title.

Sections 1 through 5 [22-18B-1 to 22-18B-5 NMSA 1978] of this act may be cited as the "Qualified School Bonds Act".

**History:** Laws 1999, ch. 225, § 1.

#### 22-18B-2. Findings and purpose.

A. The legislature finds that:

- (1) the condition of public school facilities has a direct effect on the safety of teachers and students and on the ability of students to learn;
- (2) public schools in rapidly growing urban areas of New Mexico and public schools in sparsely populated rural areas are unable to meet the capital needs for modernization of existing school facilities to meet the growing school-age population in New Mexico under present funding authorizations;
- (3) additional funding options are necessary to meet the needs for teacher training to improve student achievement levels and to meet the needs of the work place by providing sufficient student training in the use of advanced technology;
- (4) encouraging active community participation and private sector contributions to the public schools will enhance learning opportunities for New Mexico students;
- (5) authorizing additional forms of financing for school modernization and construction will permit eligible taxpayers to take advantage of tax credits not currently available to bondholders and will increase the market options for state and local bonds;
- (6) encouraging active community participation in the development of resources to build and modernize schools, to enhance educational technology and to enhance teacher training is essential to the success of students in the twenty-first century; and
- (7) authorizing additional alternative procedures for the sale of bonds will allow New Mexico public schools and eligible taxpayers to participate in available tax credits and to leverage additional funds for the improvement of public school facilities.

B. The purpose of the Qualified School Bonds Act is to implement a state program that allows eligible taxpayers to take advantage of available tax credits by expanding the incentives to purchase and hold bonds and thereby increasing the financing alternatives for modernization and rehabilitation of public school facilities and enhancing teacher training.

C. If the state or a school district that has been authorized to issue bonds, or is in the process of obtaining authorization to issue bonds, desires to designate all or any portion of the bonds as qualified school construction bonds, it shall submit an application to the council for an allocation distribution. For bonds to be issued in calendar year 2010, the application shall be submitted no later than the last day of the third month following the month in which this 2010 act is first effective; and, for bonds to be issued in any subsequent year in which an allocation exists, the application shall be submitted no later than March 1 of that year. The application shall include evidence that the requirements of Paragraphs (1) and (2) of Subsection A of Section 22-18C-3 NMSA 1978 have been satisfied; provided, however, that any school district to which a direct allocation is made

pursuant to Section 1521 of the federal American Recovery and Reinvestment Act of 2009 shall be exempt from the application requirement to the extent that the amount of qualified school construction bonds to be issued by that district does not exceed the direct allocation.

D. If, for a calendar year, the allocation for that year exceeds the amount of qualified school construction bonds designated and issued in that year, the excess shall revert to the council and shall be carried forward and included in the allocation for the subsequent year as follows:

Refunding bonds in changed denominations shall bear interest at the same rates, mature on the same dates, be in the same form and be identical with the original bonds surrendered for exchange in all respects except as to denominations, serial numbers and a recital as to the exchange. Where any exchange of bonds is made pursuant to the School Revenue Bond Act, the bonds surrendered by the holders at the time of exchange shall be cancelled [canceled]. The exchange shall be made only at the request of the holder of the bond to be surrendered, and the local school board may require the holder of the bond to pay all expenses incurred in connection with the exchange, including those of authorization and issuance of the refunding bonds.

#### 22-23-1.1. Legislative findings.

The legislature finds that:

A. while state and federal combined funding for New Mexico's bilingual multicultural education programs was forty-one million dollars (\$41,000,000) in 2003, the funds do not directly support bilingual multicultural education program instruction;

B. the state's bilingual multicultural education program goals are for all students, including English language learners, to:

(1) become bilingual and biliterate in English and a second language, including Spanish, a Native American language, where a written form exists and there is tribal approval, or another language; and

(2) meet state academic content standards and benchmarks in all subject areas;

C. districts do not fully understand how to properly assess, place and monitor students in bilingual multicultural education programs so that the students may become academically successful;

D. because inaccurate reporting on student participation in bilingual multicultural education programs has a direct impact on state and federal funding, accountability measures are necessary to track bilingual multicultural education program funds;

E. the federal No Child Left Behind Act of 2001 does not preclude using state funds for bilingual multicultural education programs;

F. Article 12, Section 8 of the constitution of New Mexico recognizes the value of bilingualism as an educational tool;

G. professional development is needed for district employees, including teachers, teacher assistants, principals, bilingual directors or coordinators, associate superintendents, superintendents and financial officers in the areas of:

(1) research-based bilingual multicultural education programs and implications for instruction;

(2) best practices of English as a second language, English language development and bilingual multicultural education programs; and

(3) classroom assessments that support academic and language development;

H. parents in conjunction with teachers and other district employees shall be empowered to decide what type of bilingual multicultural education program works best for their children and their community. Districts shall also provide parents with appropriate training in English or in the home or heritage language to help their children succeed in school;

I. because research has shown that it takes five to seven years to acquire academic proficiency in a second language, priority should be given to programs that adequately support a child's linguistic development. The state shall, therefore, fund bilingual multicultural education programs for students in grades kindergarten through three before funding bilingual multicultural education programs at higher grade levels;

J. a standardized curriculum, including instructional materials with scope and sequence, is necessary to ensure that the bilingual multicultural education program is consistent and building on the language skills the students have previously learned. The instructional materials for Native American bilingual multicultural education programs shall be written, when permitted by the Indian nation, tribe or pueblo, and if written materials are not available, an oral standardized curriculum shall be implemented;

K. equitable and culturally relevant learning environments, educational opportunities and culturally relevant instructional materials for all students participating in the program. For Native American students enrolled in public schools, equitable and culturally relevant learning environments, educational opportunities and culturally relevant instructional materials are required to satisfy a goal of the Indian Education Act [Chapter 22, Article 23A NMSA 1978]; and

L. the Bilingual Multicultural Education Act will ensure equal education opportunities for students in New Mexico. Cognitive and affective development of the students is encouraged by:

(1) using the cultural and linguistic backgrounds of the students in a bilingual multicultural education program;

(2) providing students with opportunities to expand their conceptual and linguistic abilities and potentials in a successful and positive manner; and

(3) teaching students to appreciate the value and beauty of different languages and cultures.

A. The "public school capital outlay fund" is created. Balances remaining in the fund at the end of each fiscal year shall not revert.

B. Except as provided in Subsections G and I through Q of this section, money in the fund may be used only for capital expenditures deemed necessary by the council for an adequate educational program.

C. The council may authorize the purchase by the authority of portable classrooms to be loaned to school districts to meet a temporary requirement. Payment for these purchases shall be made from the fund. Title to and custody of the portable classrooms shall rest in the authority. The council shall authorize the lending of the portable classrooms to school districts upon request and upon finding that sufficient need exists. Application for use or return of state-owned portable classroom buildings shall be submitted by school districts to the council. Expenses of maintenance of the portable classrooms while in the custody of the authority shall be paid from the fund; expenses of maintenance and insurance of the portable classrooms while in the custody of a school district shall be the responsibility of the school district. The council may authorize the permanent disposition of the portable classrooms by the authority with prior approval of the state board of finance.

D. Applications for assistance from the fund shall be made by school districts to the council in accordance with requirements of the council. Except as provided in Subsection K of this section, the council shall require as a condition of application that a school district have a current five-year facilities plan that shall include a current preventive maintenance plan to which the school adheres for each public school in the school district.

E. The council shall review all requests for assistance from the fund and shall allocate funds only for those capital outlay projects that meet the criteria of the Public School Capital Outlay Act.

F. Money in the fund shall be disbursed by warrant of the department of finance and administration on vouchers signed by the secretary of finance and administration following certification by the council that an application has been approved or an expenditure has been ordered by a court pursuant to Section 22-24-5.4 NMSA 1978. At the discretion of the council, money for a project shall be distributed as follows:

(1) up to ten percent of the portion of the project cost funded with distributions from the fund or five percent of the total project cost, whichever is greater, may be paid to the school district before work commences with the balance of the grant award made on a cost-reimbursement basis; or

(2) the council may authorize payments directly to the contractor.

G. Balances in the fund may be annually appropriated for the core administrative functions of the authority pursuant to the Public School Capital Outlay Act, and, in addition, balances in the fund may be expended by the authority, upon approval of the council, for project management expenses; provided that:

(1) the total annual expenditures from the fund for the core administrative functions pursuant to this subsection shall not exceed five percent of the average annual grant assistance authorized from the fund during the three previous fiscal years; and

(2) any unexpended or unencumbered balance remaining at the end of a fiscal year from the expenditures authorized in this subsection shall revert to the fund.

H. The fund may be expended by the council for building system repair, renovation or replacement initiatives with projects to be identified by the council pursuant to Section 22-24-4.6 NMSA 1978; provided that money allocated pursuant to this subsection shall be expended within three years of the allocation.

I. The fund may be expended annually by the council for grants to school districts for the purpose of making lease payments for facilities, including facilities leased by charter schools. The grants shall be made upon application by the school districts and pursuant to rules adopted by the council; provided that an application on behalf of a charter school shall be made by the school district, but, if the school district fails to make an application on behalf of a charter school, the charter school may submit its own application. The following criteria shall apply to the grants:

- (1) the amount of a grant to a school district or charter school shall not exceed:
  - (a) the actual annual lease payments owed for leasing a facility; or
  - (b) seven hundred dollars (\$700) multiplied by the MEM using the leased facilities; provided that in fiscal year 2009 and in each subsequent fiscal year, this amount shall be adjusted by the percentage change between the penultimate calendar year and the immediately preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor;
- (2) a grant received for the lease payments of a charter school may be used by that charter school as a state match necessary to obtain federal grants pursuant to the federal Every Student Succeeds Act;
- (3) at the end of each fiscal year, any unexpended or unencumbered balance of the grant shall revert to the fund;
- (4) no grant shall be made for lease payments due pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the lease payments made unless:
  - (a) the agreement has been approved pursuant to the provisions of the Public School Lease Purchase Act [Chapter 22, Article 26A NMSA 1978]; and
  - (b) the facilities are leased by a charter school;
- (5) if the lease payments are made pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the lease payments made, neither a grant nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facilities nor does it create a legal obligation for the state to make subsequent grants pursuant to the provisions of this subsection; and
- (6) as used in this subsection:
  - (a) "MEM" means: 1) the average full-time-equivalent enrollment using leased facilities on the second and third reporting dates of the prior school year; or 2) in the case of an approved charter school that has not commenced classroom instruction, the estimated full-time-equivalent enrollment that will use leased facilities in the first year of instruction, as shown in the approved charter school application; provided that, after the second reporting date of the current school year, the MEM shall be adjusted to reflect the full-time-equivalent enrollment on that date; and
  - (b) "facilities" includes the space needed for school activities;

J. In addition to other authorized expenditures from the fund, up to one percent of the average grant assistance authorized from the fund during the three previous fiscal years may be expended in each fiscal year by the authority to pay the state fire marshal, the construction industries division of the regulation and licensing department and local jurisdictions having authority from the state to permit and inspect projects for expenditures made to permit and inspect projects funded in whole or in part under the Public School Capital Outlay Act. The authority may enter into contracts with the state fire marshal, the construction industries division or the appropriate local authorities to carry out the provisions of this subsection. Such a contract may provide for initial estimated payments from the fund prior to the expenditures if the contract also provides for additional payments from the fund if the actual expenditures exceed the initial payments and for repayments back to the fund if the initial payments exceed the actual expenditures. Money distributed from the fund to the state fire marshal or the construction industries division pursuant to this subsection shall be used to supplement, rather than supplant, appropriations to those entities.

K. Pursuant to guidelines established by the council, allocations from the fund may be made to assist school districts in developing and updating five-year facilities plans required by the Public School Capital Outlay Act; provided that:

(1) no allocation shall be made unless the council determines that the school district is willing and able to pay the portion of the total cost of developing or updating the plan that is not funded with the allocation from the fund. Except as provided in Paragraph (2) of this subsection, the portion of the total cost to be paid with the allocation from the fund shall be determined pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978; or

(2) the allocation from the fund may be used to pay the total cost of developing or updating the plan if:

(a) the school district has fewer than an average of six hundred full-time-equivalent students on the second and third reporting dates of the prior school year; or

(b) the school district meets all of the following requirements: 1) the school district has fewer than an average of one thousand full-time-equivalent students on the second and third reporting dates of the prior school year; 2) the school district has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) the state share of the total cost, if calculated pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978, would be less than fifty percent; and 4) for all educational purposes, the school district has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds.

L. Upon application by a school district, allocations from the fund may be made by the council for the purpose of demolishing abandoned school district facilities; provided that:

(1) the costs of continuing to insure an abandoned facility outweigh any potential benefit when and if a new facility is needed by the school district;

(2) there is no practical use for the abandoned facility without the expenditure of substantial renovation costs; and

(3) the council may enter into an agreement with the school district to fully fund the demolition of the abandoned school district facility if Paragraphs (1) and (2) of this subsection are satisfied.

M. Up to ten million dollars (\$10,000,000) of the fund may be expended each year for an education technology infrastructure deficiency corrections initiative pursuant to Section 22-24-4.5 NMSA 1978; provided that funding allocated pursuant to this section shall be expended within three years of its allocation.

The secretary shall certify the need for the issuance of supplemental severance tax bonds to meet an appropriation from the public school capital outlay fund to the instructional material fund or to the transportation distribution of the public school fund. Any portion of an amount of the public school capital outlay fund that is reserved for appropriation by the legislature for a fiscal year, but that is not appropriated before the first day of that fiscal year, may be expended by the council as provided in this section.

O. Up to ten million dollars (\$10,000,000) of the fund may be expended in each of fiscal years 2019 through 2022 for school security system project grants made in accordance with Section 22-24-4.7 NMSA 1978.

P. The fund may be expended in each of fiscal years 2020 through 2024 for a pre-kindergarten classroom facilities initiative in accordance with Section 22-24-12 NMSA 1978.

Q. The council may fund pre-kindergarten classrooms with a qualifying, awarded standards-based project; provided that pre-kindergarten classroom space shall not be included in the project prioritization calculation adopted by the council pursuant to Section 22-24-5 NMSA 1978. The council shall develop pre-kindergarten classroom standards to use when funding pre-kindergarten space.

(c) "phase two formula value" for a state-chartered charter school means the phase two formula value calculated pursuant to Paragraph (6) of this subsection for the school district in which the state-chartered charter school is physically located;

(d) "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located; and

(e) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project;

(9) the amount to be distributed from the fund for an approved project pursuant to Paragraph (7) of this subsection shall be reduced by the following procedure:

(a) the total of all legislative appropriations made after January 1, 2003 for nonoperating purposes either directly to the subject school district or to another governmental entity for the purpose of passing the money through directly to the subject school district, and not rejected by the subject school district, is calculated; provided that: 1) an appropriation made in a fiscal year shall be deemed to be accepted by a school district unless, prior to June 1 of that fiscal year, the school district notifies the department of finance and administration and the public education

department that the school district is rejecting the appropriation; 2) the total shall exclude any education technology appropriation made prior to January 1, 2005 unless the appropriation was on or after January 1, 2003 and not previously used to offset distributions pursuant to the Technology for Education Act; 3) the total shall exclude any appropriation previously made to the subject school district that is reauthorized for expenditure by another recipient; 4) the total shall exclude one-half of the amount of any appropriation made or reauthorized after January 1, 2007 if the purpose of the appropriation or reauthorization is to fund, in whole or in part, a capital outlay project that, when prioritized by the council pursuant to this section either in the immediately preceding funding cycle or in the current funding cycle, ranked in the top one hundred fifty projects statewide; 5) the total shall exclude the proportionate share of any appropriation made or reauthorized after January 1, 2008 for a capital project that will be jointly used by a governmental entity other than the subject school district. Pursuant to criteria adopted by rule of the council and based upon the proposed use of the capital project, the council shall determine the proportionate share to be used by the governmental entity and excluded from the total; and 6) unless the grant award is made to the state-chartered charter school or unless the appropriation was previously used to calculate a reduction pursuant to this paragraph, the total shall exclude appropriations made after January 1, 2007 for nonoperating purposes of a specific state-chartered charter school, regardless of whether the charter school is a state-chartered charter school at the time of the appropriation or later opts to become a state-chartered charter school;

(b) the percentage used for the subject school district for the applicable fiscal year pursuant to Paragraph (7) of this subsection is subtracted from one;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph for the subject school district is multiplied by the amount calculated pursuant to Subparagraph (b) of this paragraph for that school district;

(d) the total amount of reductions for the subject school district previously made pursuant to Subparagraph (e) of this paragraph for other approved public school capital outlay projects is subtracted from the amount calculated pursuant to Subparagraph (c) of this paragraph; and

(e) the amount to be distributed from the fund pursuant to Paragraph (7) of this subsection shall be reduced by the amount calculated pursuant to Subparagraph (d) of this paragraph;

(10) the amount calculated pursuant to Paragraph (7) of this subsection, after any reduction pursuant to Paragraph (9) of this subsection, may be increased by an additional five percent if the council finds that the subject school district has been exemplary in implementing and maintaining a preventive maintenance program. The council shall adopt such rules as are necessary to implement the provisions of this paragraph;

(11) the council may adjust the amount of local share otherwise required if it determines that a school district has made a good-faith effort to use all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(b) the school district: 1) has fewer than an average of eight hundred full-time-equivalent students on the second and third reporting dates of the prior school year; 2) has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) has a share of the total project cost, as calculated pursuant to provisions of this section, that would be greater than fifty percent; and 4) for all educational purposes, has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(c) the school district: 1) has an enrollment growth rate over the previous school year of at least two and one-half percent; 2) pursuant to its five-year facilities plan, will be building a new school within the next two years; and 3) for all educational purposes, has a residential

property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(12) the local match for the constitutional special schools shall be set at fifty percent for projects that qualify under the educational adequacy category and one hundred percent for projects that qualify in the support spaces category; provided that the council may adjust or waive the amount of any direct appropriation offset to or local share required for the constitutional special schools if an applicant constitutional special school has insufficient or no local resources available; and

(13) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (7), (9), (10) or (11) of this subsection, is not funded with grant assistance from the fund;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school have a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay oversight task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities and the need for education technology infrastructure. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. The acquisition of a facility by a school district or charter school pursuant to a financing agreement that provides for lease payments with an option to purchase for a price that is reduced according to lease payments made may be considered a public school capital outlay project and eligible for grant assistance under this section pursuant to the following criteria:

(1) no grant shall be awarded unless the council determines that, at the time of exercising the option to purchase the facility by the school district or charter school, the facility will equal or exceed the statewide adequacy standards and the building standards for public school facilities;

(2) no grant shall be awarded unless the school district and the need for the facility meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act;

(3) the total project cost shall equal the total payments that would be due under the agreement if the school district or charter school would eventually acquire title to the facility;

(4) the portion of the total project cost to be paid from the fund may be awarded as one grant, but disbursements from the fund shall be made from time to time as lease payments become due;

(5) the portion of the total project cost to be paid by the school district or charter school may be paid from time to time as lease payments become due; and

(6) neither a grant award nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facility.

E. In order to encourage private capital investment in the construction of public school facilities, the purchase of a privately owned school facility that is, at the time of application, in use by a school district may be considered a public school capital outlay project and eligible for grant assistance pursuant to this section if the council finds that:

(1) at the time of the initial use by the school district, the facility to be purchased equaled or exceeded the statewide adequacy standards and the building standards for public school facilities;

(2) at the time of application, attendance at the facility to be purchased is at seventy-five percent or greater of design capacity and the attendance at other schools in the school district that the students at the facility would otherwise attend is at eighty-five percent or greater of design capacity; and

(3) the school district and the capital outlay project meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act; provided that, when determining the deviation from the statewide adequacy standards for the purposes of evaluating and prioritizing the project, the students using the facility shall be deemed to be attending other schools in the school district.

F. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using other funds available to the district to exceed the statewide adequacy standards.

G. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

H. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

I. Upon the recommendation of the authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

J. No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature.

K. As used in this section, "unrestricted revenue used for capital expenditures" means the amount of revenue certified by the department that was not restricted for a particular purpose and used by a school district to make capital outlay expenditures, as defined by the council's rules. No later than July 1, 2024, the council shall adopt rules identifying the procedure for calculating unrestricted revenue used for capital expenditures after consulting with school districts, including school districts with limited bonding capacity for capital projects, the department, the public school capital outlay oversight task force, the legislative education study committee and the legislative finance committee; provided that the rules shall provide for the exclusion of revenue raised pursuant to the Public School Capital Improvements Act and the Public School Buildings Act and expenditures related to teacher housing. For the purposes of the phase two formula value pursuant to Paragraph (6) of Subsection B of this section, the average unrestricted revenue used for capital expenditures shall be calculated as follows:

(1) in fiscal year 2025, the amount shall be equal to unrestricted revenue used for capital expenditures in the most recent prior fiscal year for which data is available multiplied by 0.2;

(2) in fiscal year 2026, the amount shall be equal to the average unrestricted revenue used for capital expenditures for the two most recent prior fiscal years for which data is available multiplied by 0.4;

(3) in fiscal year 2027, the amount shall be equal to the average unrestricted revenue used for capital expenditures for the three most recent prior fiscal years for which data is available multiplied by 0.6;

(4) in fiscal year 2028, the amount shall be equal to the average unrestricted revenue used for capital expenditures for the four most recent prior fiscal years for which data is available multiplied by 0.8; and

(5) in fiscal year 2029 and subsequent fiscal years, the amount shall be equal to the average unrestricted revenue used for capital expenditures for the five most recent prior fiscal years for which data is available.

#### ANNOTATIONS

**Contract action not barred by sovereign immunity.** — Receiving a premium, providing insurance coverage, and denying benefits indicated the existence of a valid, written, enforceable insurance contract under the Public School Insurance Authority Act between the New Mexico public schools insurance authority and a school district regarding the authority's first-party insurance obligation; therefore, the school district stated a claim for breach of contract which was not barred by sovereign immunity. *Moriarty Mun. Schs. v. N.M. Pub. Schs. Ins. Auth.*, 2001-NMCA-096, 131 N.M. 180, 34 P.3d 124.

## 22-29-8. Receipts and disbursements; issuance of warrants, purchase orders and contracts; deposit of funds.

A. All premiums and other money collected by the authority shall be deposited in the fund. Except as provided in Subsection F of Section 22-2-6.6 NMSA 1978 [22-29-6 NMSA 1978], funds shall be disbursed directly by the authority, but receipts and disbursements are subject to audit by the state auditor. Except as provided in that subsection, the authority is not required to submit proposed vouchers, purchase orders or contracts to the department of finance and administration as otherwise provided by law. The department of finance and administration shall not require the authority to rebid or to disapprove any contractual arrangements determined by the board to be in the best interests of the authority.

B. Except as provided in Subsection F of Section 22-2-6.6 NMSA 1978 [22-29-6 NMSA 1978], the board shall issue warrants in the name of the authority against funds of the authority in

payment of its lawful obligations, issue purchase orders and contract for goods or services in the name of the authority. The authority shall provide its own warrant, purchase order and contract forms as well as other supplies and equipment.

**History:** 1978 Comp., § 22-2-6.8, enacted by Laws 1986, ch. 94, § 8; 1991, ch. 142, § 5; 1978 Comp., § 22-2-6.8, recompiled as § 22-29-8, by Laws 2003, ch. 153, § 72.

**Bracketed material.** — The bracketed material was inserted by the compiler and is not part of the law.

Laws 2003, ch. 153, § 72 recompiled former 22-2-6.6 NMSA 1978 as 22-29-6 NMSA 1978, effective April 4, 2003.

**The 1991 amendment,** effective June 14, 1991, in Subsection A, substituted the first two sentences for a sentence which read "All premiums and other money collected by the authority shall be received and disbursed directly by the authority, but receipts and disbursements are subject to audit by the state auditor", added the exception at the beginning of the third sentence and added the final sentence and, in Subsection B, added the exception at the beginning.

## 22-29-9. Participation; waivers.

A. School districts and charter schools shall participate in the authority, unless the school district or charter school is granted a waiver by the board.

B. In determining whether a waiver should be granted, the board shall establish minimum benefit and financial standards for the desired line of coverage. These minimum benefit and financial standards and the proposed time schedule for responsive offers shall be sent to all school districts and charter schools at the time the request for proposals for the desired line of coverage is issued. Any school district or charter school seeking a waiver of coverage shall match the minimum benefit and financial standards set forth in the request for proposals for the desired line of coverage. School districts and charter schools shall submit documentation of their proposals matching the board's minimum benefit and financial requirements prior to the deadline established by the board. The authority has the power to approve or disapprove a waiver of participation based on the documentation submitted by the school district or charter school regarding the benefit and financial standards established by the board. The board shall grant a waiver to a school district or charter school that requests a waiver and that has met the minimum benefit and financial standards within the time schedule established by the board. Once the board awards the insurance contract, no school district or charter school shall be granted a waiver for the entire term of the contract.

C. Any school district or charter school granted a waiver of participation for health insurance shall be required to petition for participation in other kinds of group insurance coverage and shall be required to meet the requirements established by the authority prior to participation in other kinds of group insurance coverage. A school district or charter school which has been granted a waiver shall be prohibited from participating in the coverage for which a waiver was granted for the entire term of the authority's insurance contract. Provided, however, that if the authority contracts for a line or lines of coverage for a period of eight years, the board may establish procedures and preconditions for authorizing a school district or charter school which has been granted a waiver to again participate in the coverage after the expiration of the first four years of coverage.

D. Any school district or charter school granted a waiver of participation for workers' compensation shall be required to petition for participation in other risk-related coverages and shall be required to meet the requirements established by the authority prior to participation in other kinds of risk-related coverages. A school district or charter school which has been granted a waiver shall be prohibited from participating in the coverage for which a waiver was granted for the entire term of the authority's insurance contract.

E. Educational entities may petition the authority for permission to participate in the insurance coverage provided by the authority. To protect the stability of the fund, the authority shall establish reasonable terms and conditions for participation by educational entities.

F. A participating school district or charter school may separately provide for coverage additional to that offered by the authority.

G. The local school districts, charter schools or the authority, as appropriate, may provide for marketing and servicing to be done by licensed insurance agents or brokers who should receive reasonable compensation for their services.

**History:** 1978 Comp., § 22-2-6.9, enacted by Laws 1986, ch. 94, § 9; 1989, ch. 373, § 4; 1999, ch. 281, § 19; 1978 Comp., § 22-2-6.9, recompiled as § 22-29-9, by Laws 2003, ch. 153, § 72.

Each year, the legislature shall authorize the board to collect the due process reimbursement premium from member districts and charter schools to cover the cost of due process reimbursement. From the authorization, the board shall allocate due process reimbursement premiums based on a school district's or charter school's claims experience and other criteria determined by the board. A single due process reimbursement shall not exceed one hundred thousand dollars (\$100,000).

Prior to the beginning of each fiscal year, the authority shall determine the amount of money available in the fund for special education due process reimbursements.
